A

STATEMENT

OF THE

COURSE OF STUDY, EXPENSES, &c.

IN

ILLINOIS COLLEGE.

This Institution consists of two Departments; the Collegiate and the Preparatory.

COLLEGIATE DEPARTMENT.

The students in this Department are divided into four classes; the Freshman,, Sophomore, Junior and Senior.

Candidates for admission to the Freshman class, will be examined in Adams' Latin Grammar, (Gould's Edition,) Virgil, Cicero's Select Orations, Sallust, Goodrich's Greek Grammar, Greek Reader (or Græca Minora and Greek Testament) Adams' Arithmetic, Geography and English Grammar.

Candidates for an advanced standing, in addition to the preparatory studies, will be examined in the various branches, to which the class they propose to enter, has attended.

The stated time for admission into College, is on the day preceding the public Commencement. But persons may be examined in any other part of the Collegiate terms.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, each class occupying one year, and each year being divided into three terms, or sessions. The following scheme gives a view of the studies pursued each term.

FRESHMAN CLASS.

I.
- Livy, begun.
- Adams' Roman Antiquities, begun.
- Day's Algebra, begun.
- Græca Majora, begun.

II.
- Livy, continued.
- Græca Majora, continued
- Day's Algebra, finished.
- Roman Antiquities, finished,

III.
- Livy, finished.
- Græca Majora, continued through the Historical Parts.
- Day's Algebra, Reviewed.
- Playfair's Euclid begun.

SOPHOMORE CLASS.

I.
- Horace, begun.
- Græca Majora, continued.
- Euclid, continued.

II.
- Horace, finished,
- Græca Majora, continued.
- Euclid, reviewed.
- Day's Mathematics, Plane Trigonometry, Logarithms, Mensuration of Superficies and Solids, Isoperimetry.

III.
- Græca Majora, Vol. I. finished.
- Cicero de Officiis,
- Day's Mathematics, Memsuration of heights and distances, Navigation and Surveying.
- Conic Sections.

JUNIOR CLASS.

I.
- Cicero de Oratore.
- Græca Majora, 2d Vol.—Homer.
- Natural Philosophy, begun.
- Spherical Geometry and Trigonometry,

II.
- Natural Philosophy,
- Tacitus begun.
- Græca Majora, Vol. II, continued.

I
- Natural Philosophy, finished.
- Astronomy.
- Tacitus, finished.
- Compendium of History, Ancient and Modern.
- Græca Majora, Vol. II. continued.

SENIOR CLASS.

I.
- Rhetoric.
- Logic.
- Paley's Natural Theology.
- Intellectual Philosophy.
- Fluxions.

II.
- Moral Philosophy.
- Evidences of Christianity.
- Butler's Analogy.
- Greek and Latin.

III.
- Say's Political Economy.
- Federal Constitution.

In addition to the recitations on the subjects here specified, the junior class will attend a course of experimental lectures on Natural Philosophy, and the junior and senior classes, courses of experimental lectures on Chemistry, and will also receive instruction in Mineralogy, Geology and Botany. The students will also receive instruction in the science of elocution, and be required to exhibit during the whole course, frequent specimens of English Composition, and of Declamation. There will be also occasional exercises in translation from Latin and Greek authors, and in Latin Composition. Frequent Forensic Disputations will also be required from the Senior and Junior classes.

Prayers are attended in the College Chapel, every morning and evening, with the reading of the Scriptures and Sacred Music, when one of the Faculty officiates, and all the Students are required to be present. There are also religious exercises on every Sabbath, in the College Chapel, at which all the students are required to be present, except such as from conscientious scruples, prefer to attend some other place of worship. To all such, perfect liberty is given to follow the dictates of their own conscience.

The Annual Commencement will be holden on the third Wednesday in August in each year. There will be frequent examinations in each year.

There will be three vacations in each year—the first from the third Wednesday in August, six weeks—the second from the Wednesday preceding Christmas, two weeks— the third from the second Wednesday in April, four weeks.

The expenses of a year's residence at the Institution, *exclusive of vacations*, may be estimated nearly as follows:—

Tuition,	$16 50		16 50
Room Rent,	10 00	to	10 00
Ordinary Repairs,	1 50		1 50
Expenses of Recitation Rooms,	1 50		1 50
Board,	45 00	to	60 00
Washing, 30 cents per doz.,			
	74 50	to	89 50

Besides this, the student may be charged for damages done by himself, and a small sum for printing Catalogues, Schemes, &c.

The price of board in the above estimate, is that charged in the College Commons, it varies with the price of provisions and other circumstances. Board can also be obtained in private families in the Village. *All clothing must be distinctly marked*, before being sent to the wash.

After next Commencement, Tuition will be raised to $20 per annum. All students will be expected at the commencement of each term, to pay in advance, the bills for tuition and room rent, and those who board in the Commons, the sum of ten dollars towards defraying the expenses of board. But if any student shall leave before his board shall have amounted to the above named sum, the balance shall be refunded. But for sufficient reasons, the preceding regulations may be dispensed with.

The students provide for themselves bed and bedding, furniture and fuel for their rooms, candles, books and stationery. If books and furniture are carefully used, and sold when the student has no further necessity for them, the expense incurred by their use will not be great.

With regard to apparel, no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular, are warmly recommended.

PREPARATORY DEPARTMENT.

This Department is under the general superintendence of the College Faculty: in it are taught the various branches of a practical English Education, as well as those preparatory to the Collegiate Department. Those who do not wish to pursue the regular Collegiate Course, may, in this department pursue the classics and the higher departments of Science, as far as their own choice or the wishes of their friends may dictate. The department is under the immediate care of a qualified Instructor, and such assistants as may from time to time be found necessary. The expenses of this department, as well as its other general regulations, are in all important respects the same as those of the Collegiate department.

Examinations will occur in this Department at the same times as in the Collegiate Department.

Opportunity will be given in both departments, to employ a portion of each day in manual labor, either on the farm, or in the workshop, by means of which, a part of the expenses of a course of education may be defrayed.

Books.—Adams' Arithmetic.—Kirkham's Eng. Gram.—Worcester's Ancient and Modern History.—Woodbridge's Geog.—Latin Reader.—Greek Reader.

A

STATEMENT

OF THE

COURSE OF STUDY, EXPENSES, &c.

IN

Illinois College.

This Institution consists of two Departments; the Collegiate and the Preparatory.

COLLEGIATE DEPARTMENT.

The students in this Department are divided into four classes; the Freshman, Sophomore, Junior, and Senior.

Candidates for admission to the Freshman class, will be examined in Adams' Latin Grammar, (Gould's Edition,) Virgil, Cicero's Select Orations, Sallust, Goodrich's Greek Grammar, Greek Reader, (or Græca Minora and Greek Testament,) Adams' Arithmetic, Geography and English Grammar.

Candidates for an advanced standing, in addition to the preparatory studies, will be examined in the various branches, to which the class they propose to enter, has attended.

The stated time for admission into College, is on the day preceding the public Commencement. But persons may be examined in any other part of the Collegiate terms.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, each class occupying one year, and each year being divided into two terms, or sessions. The following scheme gives a view of the studies pursued each term.

FRESHMAN CLASS.

I.
- Livy, begun.
- Adams' Roman Antiquities.
- Day's Algebra, begun.
- Græca Majora, begun.

II.
- Livy, finished.
- Roman Antiquities, finished.
- Græca Majora, through the Historical parts.
- Day's Algebra, finished and reviewed.
- Playfair's Euclid begun.

SOPHOMORE CLASS.

I.
- Horace begun.
- Græca Majora, Vol. I. continued.
- Euclid, finished and reviewed.
- Day's Mathematics, Plane Trigonometry, Logarithms, Mensuration of Superfices and Solids, Isoperimetry.

II.
- Horace, finished.
- Græca Majora, Vol. I. finished.
- Day's Mathematics, Mensuration of heights and distances, Navigation and Surveying.
- Bridge's Conic Sections.

JUNIOR CLASS.

I.
- Cicero de Officiis, or Juvenal.
- Græca Majora, Vol. II.—Homer.
- Spherical Geometry and Trigonometry.
- Olmstead's Natural Philosophy.

II.
- Tacitus.
- Natural Philosophy, finished.
- Astronomy.
- Tytler's History.
- Græca Majora, Vol. II. continued.

SENIOR CLASS.

I.
- Blair's Retoric.
- Hedge's Logic.
- Paley's Natural Theology.
- Stewart's Intellectual Philosophy.

II.
- Paley's Moral Philosophy.
- Evidences of Christianity
- Say's Political Economy.
- Kent's Commentaries on American Law, Vol. I.

The students will also receive instruction in the science of Elocution, and be required to exhibit during the whole course, frequent specimens of English Composition, and of Declamation. There will be also occasional exercises in translation from Latin and Greek authors, and in Latin Composition. Frequent Forensic Disputations will also be required from the Senior and Junior classes.

The upper classes will attend a course of experimental lectures on Chemistry.—Lectures on Natural Philosophy, will be delivered to the Junior class as soon as suitable apparatus can be procured. Instruction will also be communicated in Mineralogy, Geology, and to those who desire it, in Botany, as soon as circumstances will allow.

PREPARATORY DEPARTMENT.

This Department is under the general superintendence of the College Faculty: in it are taught the various branches of a practical English Education, as well as those preparatory to the Collegiate Department. Those who do not wish to pursue the regular Collegiate course, may, in this department, pursue the classics and the higher departments of Science, as far as their own choice or the wishes of their friends may dictate. The department is under the immediate care of a qualified instruc-

tor, and such assistants as may from time to time be found necessary.

Books.—Kirkham's English Grammar, Woodbridge's large or small Geography, according to the advancement of the student, Adams' Arithmetic, Worcester's Ancient and modern History. In the Languages, Adam's Latin Grammar, (Gould's Edition,) Goodrich's Greek Grammar, Latin Reader, Greek Reader, Virgil, Sallust, Cicero's Select Orations.

In the higher branches of study the same text books are used as in the Collegiate Department.

RELIGIOUS EXERCISES.

Prayers are attended in the College Chapel, every morning and evening, with the reading of the Scriptures and Sacred Music, when one of the Faculty officiates, and all the Students are required to be present. There are also religious exercises on every Sabbath, in the College Chapel, at which all the students are required to be present, except such as from concientious scruples, prefer to attend some other place of worship. To all such, perfect liberty is given to follow the dictates of their own conscience.

COMMENCEMENT—VACATIONS—EXAMINATIONS.

The annual commencement will be holden on the third Wednesday in September, in each year. There will be an examination of each class at the middle and close of each term.

There will be two Vacations in each year—the first from the third Wednesday in September, eight weeks—the second from the Wednesday preceeding the 5th day of April, four weeks.

EXPENSES.

1. *Annual Expenses exclusive of Vacations.*

Tuition, - - - - - -	$20 00
Room Rent, - - - - - -	10 00
Ordinary Repairs, - - -	1 50
Wood and lights for Recitation Rooms, and Sweeping, - - - -	1 50
Board at cost, say about - - -	50 00
Washing about 30 cents per doz.	
Total, - - - -	$83 00

The price of board in the above estimate, is that charged in the College Commons. It varies with the price of provisions and other circumstances, from 45 to 60 dollars per annum. The estimate given above varies little from the common price. *All clothing must be distinctly marked*, before being sent to the wash. The expenses of books, stationery, fuel and lights, do not admit of an exact statement, but may be estimated at from eight to ten dollars per annum—also the student may be charged a small sum for printing Catalogues, Schemes, etc.

With regard to apparel, no general estimate can be be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are warmly recommended.

2. *Outfit.*—The expenses of an outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are, a plain table, two or three chairs, a pail, wash bowl and pitcher, andirons, shovel and tongs, bedstead and bed clothes.

With the exception of a bed these articles can be easi-

ly purchased here at a reasonable rate. But in all cases when it can be done, it is advisable for a student to bring a bed and bed clothes with him. The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for a room, or from 5 to 6 dollars for each student.

The furniture if carefully used, can be sold when no longer needed, after a reasonable deduction. The same is true of books.

A bed and bed clothes, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the building, books, etc. of the Institution he is liable to be charged to the extent of the damage.

PAYMENT IN ADVANCE.

All students will be expected at the commencement of each term, to pay in advance, the bills for tuition, room rent, and incidental expenses, and those who board in the Commons, the sum of fifteen dollars towards defraying the expenses of board, in all $31 50. But if any student shall leave before his board shall have amounted to the above named sum, the balance shall be refunded.

MANUAL LABOR & BENEVOLENT LIBRARY.

Opportunity will be given in both departments, to employ a portion of each day in manual labor, either on the farm, or in the workshop, by means of which, a part of the expenses of a course of education may be defrayed.

A benevolent Library has also been founded with a view to aid indigent students. It is designed to co

the text books used in both departments. For the use of these books, only a small tax is paid. All of the students have weekly access to the College Library consisting of about 1,500 volumes.

GENERAL RULES.

In all their intercourse with their Instructors and with each other, the students are expected to observe those principles of benevolence, honor, integrity and affection which are essential to the welfare of every well regulated community, and which are alike founded on the laws of God, and on the reason and conscience of man. In the pursuit of their studies, to exhibit industry, diligence, and energy, and to avoid all objects, pursuits, and society which tend to divide and weaken the mind. To observe the Sabbath, avoid profaneness, and vice of every kind, and to abstain from all that tends to injure their own interests or the public good.

N. B. Since the publication of the last catalogue a law has been passed by the Trustees requiring

that no new students be admitted to the Institution under the age of fourteen years, in consequence of which the number of names which would otherwise have appeared in this catalogue has been considerably diminished. This catalogue is designed to exhibit only those who are members of the Institution at the time of publication.

A
STATEMENT
OF THE
COURSE OF STUDY, EXPENSES, &c.
IN
ILLINOIS COLLEGE.

This Institution consists of two departments; the Collegiate and Preparatory.

COLLEGIATE DEPARTMENT.

The students in this department are divided into four classes; the Freshman, Sophomore, Junior, and Senior.

Candidates for admission to the Freshman class, will be examined in Adams' Latin grammar,(Gould's Edition,) Virgil, Cicero's Select Orations, Sallust, Goodrich's Greek Grammar, Greek Reader, (or Græca Minora and Greek Testament,) Adams' Arithmetic, Geography, and English Grammar.

Candidates for an advanced standing, in addition to the preparatory studies, will be examined in the various branches, to which the class they propose to enter, has attended.

The stated time for admission into College, is on the day preceding Commencement. But persons may be examined in any other part of the Collegiate terms.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, each class occupying one year, and each year being divided into two terms, or sessions.

The following scheme gives a view of the studies pursued each term:

FRESHMAN CLASS.

I
- Livy, begun.
- Adams' Roman Antiquities.
- Day's Algebra.
- Græca Majora, begun.

II
- Livy, finished.
- Roman Antiquities, finished.
- Græca Majora, through the Historical parts.
- Playfair's Euclid.

SOPHOMORE CLASS.

I.
- Horace, begun.
- Græca Majora, Vol. I. continued.
- Day's Mathematics, Plane Trigonometry, Logarithms, Mensuration of Superfices and Solids, Isoperimetry, Mensuration of Heights and Distances, Navigation, and Surveying.

II
- Horace, finished.
- Græca Majora, Vol. I. finished.
- Bridge's Conic Sections.
- Olmsted's Natural Philosophy, begun.

JUNIOR CLASS.

I. { Cicero de Officiis, or Juvenal.
Græca Majora, Vol. II.—Homer.
Olmsted's Natural Philosophy, finished.

II { Tacitus.
Herschel's Astronomy.
Tytler's Histoty.
Græca Majora, Vol. II. continued.

SENIOR CLASS.

I. { Blair's Rhetoric.
Hedge's Logic.
Paley's Natural Theology.
Stewart's Intellectual Philosophy.

II { Paley's Moral Philosophy.
Evidences of Christianity.
Say's Political Economy.
Kent's Commentaries on American Law Vol I.

The students will also receive instruction in the science of Elocution, and be required to exhibit during the whole course, frequent specimens of English Composition, and of declamation. There will be also occasional exercises in translation from Latin and Greek authors, and in Latin Composition. Frequent Forensic Disputations will also be required from the Senior and Junior classes.

The upper classes will attend a course of experimental lectures on Chemistry.—Lectures on Natural Philosophy, will be delivered to the Junior

class as soon as suitable apparatus can be procured. A superior collection of apparatus for this department has been already ordered and is expected to be received in season for a course of lectures the present year. Instruction will also be communicated in Mineralogy, Geology, and to those who desire it, in Botany, as soon as circumstances will allow.

PREPARATORY DEPARTMENT.

This Department is under the general superintendence of the College Faculty; in it are taught the various branches of a practical English Education, as well as those preparatory to the Collegiate Department. The department is under the immediate care of a qualified instructor, and such assistants as may from time to time be found necessary.

BOOKS.—Kirkham's English Grammar, Woodbridge's large or small Geography, according to the advancement of the student, Adams' Arithmetic, Worcester's Ancient and Modern history. In the Languages Adams' Latin Grammar, (Gould's Edition,) Goodrich's Greek Grammar, Latin Reader, Greek Reader, Virgil, Sallust, Cicero's Selec Orations.

RELIGIOUS EXERCISES.

Prayers are attended in the College Chapel, every morning and evening, with the reading of the Scriptures and Sacred Music, when one of the Faculty officiates, and all the Students are required to be present. There are also religious exercises on every Sabbath, in the College Chapel, at which all the students are required to be present, except such asfrom conscientious scruples prefer to attend some other place of worship. To all such, perfect liberty is given to follow the dictates of their own conscience.

COMMENCEMENT—VACATIONS—EXAMINATIONS.

The Annual Commencement will be holden on the third Wednesday in September, in each year. There will be an examination of each class at the close of each term.

There will be two Vacations in each year—the first from the third Wednesday in September, eight weeks—the second from the Wednesday preceeding the 5th day of April, four weeks.

EXPENSES.

1. ANNUAL EXPENSES EXCLUSIVE OF VACATIONS:

Tuition, ...	$20 00
Room Rent, ...	10 00
Ordinary Repairs, ...	1 50
Wood and lights for Recitation rooms, and Sweeping, . . .	1 50
Board at cost, say about . . .	50 00
Washing about 30 cents per doz.	
Total, ...	$83 00

The price of board in the above estimate, is that charged in the College Commons. It varies with the price of provisions and other circumstances, from 45 to 60 dollars per annum. The estimate given above varies little from the common price. *All clothing must be distinctly marked*, before being sent to wash. The expenses of books, stationary, fuel, and lights, do not admit of an exact statement, but may be estimated from eight to ten dollars per annum—also the students may be charged a small sum for printing catalogues, schemes, etc. After the present term students attending the Lectures in Chemistry and Natural Philosophy will be charged $2 50 for each course for the use of apparatus.

With regard to apparel no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are warmly recommended.

2. Outfit.—The expenses of an outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are, a plain table, two or three chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedsted and bed clothing.

With the exception of a bed these articles can be easily purchased here at a reasonable rate. But in all cases when it can be done, it is advisable for a student to bring a bed and bed clothes with him. The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for a room, or from 5 to 6 dollars for each student.

The furniture if carefully used, can be sold when no longer needed, after a reasonable deduction. The same is true of books.

A bed and bed clothes, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the buildings, books, etc. of the institution he is liable to be charged to the extent of the damage.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character—and those coming from other colleges are required to bring recommendations from the colleges from which they come.

PAYMENT IN ADVANCE.

All students will be expected at the commencement of each term, to pay in advance, the bills for tuition, room rent, and incidental expenses, and those who board in the Commons, the sum of fifteen dollars towards defraying the expenses of board, in all $31 50. But if any student shall leave the Commons before his board shall have amounted to the above named sum the balance shall be refunded.

MANUAL LABOR AND BENEVOLENT LIBRARY.

Opportunity will be given in both departments, to employ a portion of each day in manual labor, either on the farm or in the work-shop, by means of which, a part of the expenses of a course of education may be defrayed.

A Benevolent Library has also been founded with a view to aid indigent students. It is designed to contain the text books in both departments.—For the use of these books only a small tax is paid. All of the students have weekly access to the College Library consisting of about 1,500 volumes.

GENERAL RULES.

In all their intercourse with their Instructors, and with each other, the students are expected to observe those principles of benevolence, honor, integrity and affection which are essential to the welfare of every well regulated community, and which are alike founded on the laws of God, and on the reason and conscience of man: in the pursuit of their studies, to exhibit industry, diligence, and energy, and to avoid all objects, and pursuits, which tend to divide and weaken the mind: to observe the Sabbath, avoid profaneness, and vice of every kind and to abstain from all that tends to injure thier own interests or the public good.

NOTICE.

In consideration of having excluded from the existing Departments of the Institution, lads under 14 years of age, the Trustees will open a PREPARATORY DEPARTMENT in the town of Jacksonville, on the Wednesday preceding the 5th day of April next, designed for the accommodation of those of all ages, who may desire to attend. Good accommodations and a well qualified teacher will be provided.

Prof. Rhet. &c.	Junior	Recitation	7½ A. M.	5	Demosthenes' Orations and selections from the Latin Classics.
"	Freshman	Lecture	Optional	1	Rhetoric and Belleslettres thro' a part of the Term.
"	Senior	Recitation	5 P. M.	3	Rhetoric for one half the Term.
"	Rhet. Soc.	Exhibition Criticism	Optional	2 2	Compositions, Criticisms, & Declamations as during first Term.
Prof. Chem.	Jun & Sen	Lecture	Optional	4	Chemistry.

There will be occasional exercises in translation from Latin and Greek authors, and in Latin Composition.---Frequent Forensic Disputations will also be required from the Senior and Junior classes.

The upper classes will attend a course of experimental lectures on Chemistry. Lectures on Natural Philosophy, will be delivered to the Junior class as soon as suitable apparatus can be procured. A superior collection of apparatus for this department has been procured in Europe, and intelligence has just been received of its safe arrival. Instruction will also be communicated in Mineralogy, Geology, and to those who desire it, in Botany, as soon as circumstances will allow.

PREPARATORY DEPARTMENT.

This department is under the general superintendence of the College Faculty; in it are taught Arithmetic and the Languages, preparatory for admission to the Freshman class, and the members are allowed to pursue the studies of any of the College classes for which they may be qualified.

The department is under the immediate care of a qualified instructor, and such assistants as may from time to time be found necessary.

BOOKS.—Adams' Arithmetic, Adams' Latin Grammar, (Gould's Edition,) Goodrich's Greek Grammar, Latin Reader, Greek Reader, Virgil, Sallust, Cicero's Select Orations.

RELIGIOUS EXERCISES.

Prayers are attended in the College Chapel, every morning and evening, with the reading of the Scriptures and Sacred Music, when one of the Faculty officiates, and all the Students are required to be present. There are also religious exercises on every Sabbath, in the College Chapel, at which all the Students are required to be present, except such as from conscientious scruples prefer to attend some other place of worship. To all such, perfect liberty is given to follow the dictates of their own conscience.

COMMENCEMENT—EXAMINATIONS—VACATIONS.

The Annual Commencement will be holden on the third Wednesday in September, in each year. There will be an examination of each class at the close of each term.

There will be two Vacations in each year—the first from the third Wednesday in September, eight weeks—the second from the Wednesday preceding the seventh day of April, four weeks.

EXPENSES:

1. ANNUAL EXPENSES EXCLUSIVE OF VACATIONS.

Tuition, - - - -	$20 00
Room Rent, - - - -	10 00
Ordinary Repairs, - - .	1 50

Wood, and lights for Recitation rooms, and Sweeping, . - -	1 50
Board at cost,—average - -	70 00
Washing about 40 cents per doz.	
Total, - - -	$103 00

The price of board in the above estimate, is that charged in the College Commons. It varies with the price of provisions and other circumstances, from 60 to eighty dollars per annum. The estimate given varies little from the common price. *All clothing must be distinctly marked*, before being sent to the wash. The expenses of books, stationery, fuel, and lights, do not admit of an exact statement, but may be estimated from twelve to fifteen dollars per annum--also the students may be charged a small sum for printing catalogues, schemes, &c. After the present term students attending the Lectures in Chemistry and Natural Philosophy will be charged $2 50 for each course for the use of apparatus.

With regard to apparel no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are warmly recommended.

2. Outfit. The expenses of an outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are a plain table, two or 3 chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedstead and bed clothing.

With the exception of a bed these articles can be

easily purchased here at a reasonable rate. But in all cases when it can be done, it is advisable for a student to bring a bed and bed clothes with him. The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for a room, or from 5 to 6 dollars for each student.

The furniture, if carefully used, can be sold when no longer needed, after a reasonable deduction. The same is true of books.

A bed and bed clothes, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the buildings, books, &c. of the Institution he is liable to be charged to the extent of the damage.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character—and those coming from other colleges are required to bring recommendations from the colleges from which they come.

RELIEF FOR INDIGENT STUDENTS AND PAYMENT IN ADVANCE.

All students will be expected at the commencement of each term, to pay in advance, the bills for tuition, room rent, and incidental expenses, and those who board

in the Commons, the sum of fifteen dollars towards defraying the expenses of board, in all $31 50. But if any student shall leave the Commons before his board shall have amounted to the above named sum the balance shall be refunded.

To those who have not the means of defraying their own expenses, the sum of *thirty dollars*, annually, (equal to tuition and room rent,) is at present allowed; Provided the number of applicants does not exceed thirty:—and individuals thus receiving assistance give their note as follows:

"For value received I promise to pay the Treasurer of Illinois College, or order, —— dollars on demand, with interest at six per cent. from date: Provided, nevertheless, that this obligation be cancelled, in case I complete a regular College course at this Institution, and, immediately upon graduating, spend three years as a public Instructor, or devote myself to the gospel ministry."

And it is expected that soon the sum of fifty dollars annually, will be granted to as many as fifty students on the SAME condition; but no student will be permitted in any case to incur a debt to the Institution for his board. The Prudential committee, however, have power to provide in extreme cases.

N. B. After the current year all bills will be required in advance.

MANUAL LABOR AND BENEVOLENT LIBRARY.

Opportunity will be given in both departments, to employ a portion of each day in manual labor, either on the farm or in the work-shop, by means of which, a part

of the expenses of a course of education may be defrayed.

A benevolent Library has also been founded with a view to aid indigent students. It is designed to contain the text books in both departments. For the use of these books only a small tax is paid. All the students have weekly access to the College Library consisting of about 1,500 vols.

GENERAL RULES.

In all their intercourse with their Instructors, and with each other, the students are expected to observe those principles of benevolence, honor, integrity and affection, which are essential to the welfare of every well regulated community, and which are alike founded on the laws of God, and on the reason and conscience of man: in the pursuit of their studies, to exhibit industry, diligence, and energy, and to avoid all objects, and pursuits, which tend to divide and weaken the mind: to observe the Sabbath, avoid profaneness, and vice of every kind, and to abstain from all that tends to injure their own interests or the public good.

APPENDIX.

JACKSONVILLE ACADEMY.

For the convenience of those who might be incommoded by the exclusion of ordinary English studies from the Preparatory Department of Illinois College, a competent teacher is employed to instruct in those branches, in the village, under the direction of the following Board of

	TOTAL 27.

The Trustees of Jacksonville Academy have rented for the present a commodious room in the basement story of the Congregational church.

No Student will be admitted under the age of 10 years or who is not qualified by previous attainments to enter with advantage upon the study of English Grammar, Geography, Arithmetic and such other branches of education as are usually taught in Institutions of a similar grade. Some of the more prominent text books employed will be the following, viz: National Reader, Adams' Arithmetic, Smith's Arithmetic, Woodbridge's large and small Geographies, Kirkham's English Grammar, Gould's Adam's Latin Grammar, Goodrich's Greek Grammar, together with most approved text books in history, the Classics, and the higher branches of Mathematics.

The tuition is $5 00 per quarter of 12 weeks.—There will be two terms in each year of 24 weeks each, with a vacation of two weeks in the Fall and another of the same length in the Spring. Additional instructors will be employed as soon as the

number of students shall be such as to justify it, and no pains will be spared to make the Academy such as shall afford to the youth of our Village and the surrounding country, every facility for preparing themselves either for business or for entering any of the colleges of our country with credit and advantage.

* Those to whose names this mark is affixed are pursuing only a part of the studies of the Class in connexion with which their names appear.

Since the publication of the last Catalogue a law has been passed by the Trustees cutting off entirely the Preparatory Department, in consequence of which the number of names which would otherwise have appeared in this Catalogue has been considerably diminished. This Catalogue is intended to exhibit only the names of those who are members of the Institution at the time of publication.

ABREVIATIONS, { [C. B.] COLLEGE BUILDINGS. / [C.] CHAPEL.

A STATEMENT

OF THE

COURSE OF STUDY, EXPENSES, &c.

IN

ILLINOIS COLLEGE.

The students in this Institution are divided into four Classes, the Freshman, Sophomore, Junior, and Senior. Candidates for admission to the Freshman class will be examined in Adam's Latin Grammar (Gould's Edition,) or Andrews and Stoddard's Latin Grammar by preference, Virgil, Cicero's Select Orations, Sallust, Goodrich's Greek Grammar, Greek Reader (or Græca Minora and Greek Testament,) Adams' Arithmetic, Geography, and English Grammar.

Candidates for an advanced standing, in addition to the preparatory studies, will be examined in the various branches to which the class they propose to enter has attended.

The stated time for admission into College is on the day preceding Commencement; but candidates may be examined in any other part of the Collegiate terms.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, each class occupying one year, and each year being divided into two terms or sessions.

The following scheme gives a view of the studies pursued each term.

COURSE OF INSTRUCTION.

FIRST TERM.

INSTRUCTORS.	CLASS.	EXERCISE.	HOUR OF DAY	D'S IN W	SUBJECTS.
President,	Senior	Recitation or Lecture	12 M.	5	Intellectual Philos'y; Logic; Moral Philos'y; Natural Theology; and Evidences of Christianity.
"	Junior	do.	4 P. M.	5	Outline of Anc'nt & Mod. History
Prof. of Math. and Nat. Philosophy,	Freshman	Recitation	4 P M	5	Algebra.
"	Soph'more	do	12 M	5	Plane & Spherical Trigonometry, Mensuration, Navigation, and Surveying.
"	Junior	do	8½ A M	5	Pneumatics, Electricity, Magnetism, Optics, and Astronomy.
"	Jun & Sen	Lecture	Optional	1	Nat. Philosophy—experimemts.
Prof Lat. & Greek Languages.	Freshman	Recitation	12 M	5	Historical parts of Græca Majora with Lysias and Isocrates.
"	Soph'more	do	8½ A M	5	Græca Maj. vol. I. completed.—Extracts from Homer.
"	Junior	Lecture	Optional	1	Philosophy & History of Language & Hist. of Lat. & Greek Lang. and Literature in particular.

Prof. Rhet. &c.	Senior	Recitation	4 P M	5	Critical study of select Greek and Latin authors.
"	"	Lecture	Optional	1	Rhetoric or a critical analysis of some English author.
"	Rhetoric'l Society †	Exhibition	"	2	Exhibition of Compositions and Elocution—one day by Departments—the other before the whole Society.
"	"	Criticism	"	2	Compositions criticized and Declamations analyzed privately by the Prof.
Prof of Chemistry	Jun & Sen	Lecture	Optional	4	Chemistry

SECOND TERM.

INSTRUCTORS.	CLASS.	EXERCISE	HOUR OF DAY	D'S IN W	SUBJECTS.
President,	Senior	Recitation or Lecture	11 A M	5	Political Economy and American Law—continued through one half the Term.

		Criticism		2	

There will be occasional exercises in translation from Latin and Greek authors, and in Latin composition. Frequent Forensic Disputations will also be required from the Junior and Senior classes.

The upper classes will attend a course of experimental lectures on Chemistry. Lectures on Natural Philosophy will be delivered to the Junior class. A superior collection of apparatus for this department has been procured from Europe. Instruction will also be communicated in Mineralogy, Geology, and to those who desire it, in Botany, as soon as circumstances will allow.

RELIGIOUS EXERCISES.

Prayers are attended in the College Chapel, every morning and evening, with the reading of the Scriptures and Sacred Music, when one of the Faculty officiates, and all the Students are required to be present. There are also religious exercises on every Sabbath, in the College Chapel, at which all the Students are required to be present, except such as from conscientious scruples prefer to attend some other place of worship. To all such, perfect liberty is given to follow the dictates of their own conscience.

COMMENCEMENT—EXAMINATIONS—VACATIONS.

The Annual Commencement will be holden on the third Wednesday in September, in each year. There will be an examination of each class at the close of each term.

There will be two Vacations in each year—the first

from the third Wednesday in September, eight weeks —the second, from the Wednesday preceding the 7th day of April, four weeks.

EXPENSES.

1. ANNUAL EXPENSES EXCLUSIVE OF VACATIONS.

Tuition, - - - -	$20 00
Room Rent, - - - -	10 00
Ordinary Repairs, - - -	1 50
Wood and lights for Recitation Rooms, and Sweeping, - - -	1 50
Board, at cost,—average - -	70 00
Washing, about forty cents per dozen.	
Total,	$103 00

The price of board in the above estimate, is that charged in the College Commons. It varies with the price of provisions and other circumstances, from 60 to 80 dollars per annum. The estimate given varies little from the common price. All clothing must be distinctly marked before being sent to the wash. The expenses of books, stationery, fuel, and lights do not admit of an exact statement, but may be estimated from twelve to fifteen dollars per annum—also, the students may be charged a small sum for printing catalogues, schemes, etc: and those attending the Lectures in Chemistry and Natural Philosophy will be charged $2 50 for each course for the use of apparatus.

With regard to apparel no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are warmly recommended.

2. Outfit. The expenses of an outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are a plain table, two or three chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedstead and bed clothing.

With the exception of a bed these articles can be easily purchased here at a reasonable rate. But in all cases when it can be done, it is advisable for a student to bring a bed and bed clothes with him. The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for a room, or from 5 to 6 dollars for each student.

The furniture, if carefully used, can be sold when no longer needed, after a reasonable deduction. The same is true of books.

A bed and bed clothes, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the buildings, books, &c. of the Institution he is liable to be charged to the extent of the damage.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character—and those coming from other colleges are required to bring recommendations from the colleges from which they come.

RELIEF FOR INDIGENT STUDENTS AND PAYMENT IN ADVANCE.

All students will be expected at the commence-

ment of each term, to pay in advance, the bills for tuition room rent, and incidental expenses, and those who board in the Commons, the sum of $43 50 towards defraying the expenses of board, in all $60 00. But if any student shall leave the Commons before his board shall have amounted to the above named sum the balance shall be refunded.

To those who have not the means of defraying their own expenses, the sum of *thirty dollars*, annually, (equal to tuition and room rent,) is at present allowed; Provided the number of applicants does not exceed thirty:—and individuals thus receiving assistance give their note as follows:

"For value received I promise to pay the Treasurer of Illinois College, or order, —— dollars on demand, with interest at six per cent. from date: Provided, nevertheless, that this obligation be cancelled, in case I complete a regular College course at this Institution, and, immediately upon graduating, spend three years as a public Instructor, or devote myself to the gospel ministry."

And it is expected that soon the sum of fifty dollars annually, will be granted to as many as 50 students on the SAME condition; but no student will be permitted in any case to incur a debt to the Institution for his board. The Prudential committee, however, have power to provide in extreme cases.

MANUAL LABOR AND BENEVOLENT LIBRARY.

Opportunity will be given to employ a portion of each day in manual labor, either on the farm or in the work-shop, by means of which, a part of the expenses of a course of education may be defrayed.

A benevolent Library has also been founded with a view to aid indigent students. It is designed to contain the text books of the College course For the

use of these books only a small tax is paid. All the students have weekly access to the College Library consisting of about 1,500 vols.

GENERAL RULES.

In all their intercourse with their Instructors, and with each other, the students are expected to observe those principles of benevolence, honor, integrity and affection, which are essential to the welfare of every well regulated community, and which are alike founded on the laws of God, and on the reason and conscience of man: in the pursuit of their studies, to exhibit industry, diligence, and energy, and to avoid all objects, and pursuits, which tend to divide and weaken the mind: to observe the Sabbath, avoid profaneness, and vice of every kind, and to abstain from all that tends to injure their own interests or the public good.

PROFESSOR OF CHEMISTRY, &c.

Junior,	Recitation,	5, P. M.	5	Racine's Works,
do. & Sen.	Lecture,	Optional,	4	Mineralogy, Geology and Natural History.

There will be occasional exercises in written translation from Latin and Greek authors, and in Latin composition. Frequent Forensic Disputations will also be required from the Junior and Senior classes.

The upper classes attend experimental lectures on Chemistry; and courses of Lectures on Natural Philosophy and Astronomy are delivered to the Junior class. A superior collection of apparatus for this department has been procured from Europe, to which a considerable addition has just been made. Instruction is given in the French language without any extra charge, and also lectures on Mineralogy, Geology, Botany, and Natural History.

Lectures.

The lectures upon Natural Philosophy will commence on the first Monday of the term and continue nine weeks, embracing the topics of Mechanics, Electricity and Magnetism. The lectures upon Chemistry will commence on the tenth Monday of the term and be completed in nine weeks. The lectures upon Natural Philosophy will be resumed on the first Monday of the last half term and be completed in nine weeks, embracing Hydrostatics, Pneumatics, Acoustics Optics and Astronomy. The lectures upon Mineralogy, Geology and Natural History will commence on the tenth Monday of the last half term and be completed in nine weeks.

Religious Exercises.

Prayers are attended in the College Chapel, every morning and evening, with the reading of the Scriptures and Sacred Music, when one of the Faculty officiates, and all the Students are required to be present. There are also religious exercises on every Sabbath, in the College Chapel at which all the Students are required to be present, except such as from conscientious scruples prefer to attend some other place of worship. To all such, perfect liberty is given to follow the dictates of their own conscience.

Commencement.

The annual commencement will be held the last Wednesday in June.

Terms.

Since the publication of the last catalogue the College year has been so arranged as to include in the term of study the season most favorable to mental effort and least incident to disease. The term of study embraces forty weeks, to commence twelve weeks after the annual commencement.

Vacations.

There will be one vacation each year, comprising twelve weeks, from the last Wednesday in June.

Examinations.

There will be an examination of a week at the close of each half term. During the ten weeks previous to commencement the Senior class will review the studies of the entire course, and be examined on the same for degrees. A special committee is appointed by the Trustees to attend the examinations.

Expenses.

ANNUAL EXPENSES EXCLUSIVE OF VACATIONS:

Tuition,	$20 00
Room Rent,	10 00
Ordinary Repairs,	1 50
Wood and lights for Recitation rooms, and sweeping,	1 50
Board say,—average	60 00
Washing, about fifty cents per dozen,	10 00
Total,	$103 00

The price paid for board at the present time is from $1 00 to $2 00 per week. The College Hall is rented to an individual who furnishes board at $2 00 per week. But those who desire it may obtain plainer board at a cheaper rate.

The expenses of books, stationery, fuel, and lights, do not admit of an exact statement, but may be estimated from twelve to fifteen dollars per annum—also, the students may be charged a small sum for printing catalogues, schemes, etc: and those attending the Lectures in Chemistry and Natural Philosophy will be charged $2 50 for each course, for the use of apparatus.

With regard to apparel no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are warmly recommended.

2. Outfit. The expenses of an outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are a plain table two or three chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedstead and bed clothing.

With the exception of a bed these articles can be easily purchased here at a reasonable rate. But in all cases when it can be done, it is advisable for a student to bring a bed and bed cloths with him. The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for room, or from 5 to 6 dollars for each student.

The furniture, if carefully used, can be sold when no longer needed, with a reasonable deduction. The same is true of books.

A bed and bed cloths, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the buildings, books, &c. of the Institution he is liable to be charged to the extent of the damage.

Terms of Admission.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character and those coming from other colleges are required to bring recommendations from the colleges from which they come.

Relief for Indigent Students,

AND PAYMENT IN ADVANCE.

All students will be expected at the commencement of each term, to pay in advance, the bills for tuition, room rent and incidental expenses, in all $33 00.

To those who have not the means of defraying their own expenses the sum of thirty dollars, annually [equal to tuition and room rent) is at present allowed; provided the number of applicants does not

exceed thirty:—and individuals thus receiving assistance give their note as follows.

"For value received I promise to pay the Treasurer of Illinois College, or order,—dollars on demand, with interest at six per cent from date: Provided, nevertheless, that this obligation be cancelled in case I complete a regular College course at this Institution, and immediately upon graduating, spend three years as a public Instructor, or devote myself to the gospel ministry."

And it is expected that soon the sum of fifty dollars annually, will be granted to as many as 50 students on the SAME condition.

Those who choose to draw books are charged one dollar per term for the use of the library.

Manual Labor and Benevolent Library.

Those who wish to defray a part of their expenses by their labor may generally find employment either in a work shop or on a farm, both owned by the college, and can obtain a fair compensation for their labor. A benevolent Library has also been founded with a view to aid indigent students. It is designed to contain the text books of the College course. For the use of these books only a small tax is paid. All the students have weekly access to the College Library, consisting of about 1,500 vols.

Cabinet of Mineralogy and Geology.

A cabinet of Mineralogy and Geology is an indispensable requisite to a thorough course of instruction in these departments of science. Some collections for a cabinet have already been made, and some generous donations have been received from individuals. But the cabinet is still necessarily very imperfect. It is highly important that it should contain, as speedily as possible, specimens of all the rocks, minerals, fossils, shells, &c. of our own state.

The attention of the friends of this institution is particularly invited to this subject. Many may have it in their power, at a very small expense, to collect and send to the college specimens of great value for a cabinet. The specimens should be numbered and accompanied with an account of the locality where each is found.

The Professor of Mineralogy and Geology will be glad to enter into arrangements for exchange with those, who are interested in the collection of cabinets. He pledges himself to furnish the specimens of this and the adjoining states to those gentlemen residing

at a distance, who are desirous of obtaining them in exchange for those of their own region. Those, who are desirous of entering into such an arrangement, may do it by addressing a letter to the Professor of Chemistry, Mineralogy and Geology.

General Rules.

In all their intercourse with their Instructors, and with each other, the students are expected to observe those principles of benevolence, honor, integrity and affection, which are essential to the welfare of every well regulated community, and which are alike founded on the laws of God, and on the reason and conscience of man: in the pursuit of their studies, to exhibit industry, diligence, and energy, and to avoid all objects, and pursuits, which tend to divide and weaken the mind; to observe the Sabbath, avoid profaneness, and vice of every kind, and to abstain from all that tends to injure their own interests or the public good.

For the information of our Patrons is annexed a list of the Graduates of this College from its foundation.

CLASS—1835.

Charles D. Simpson.

NOTICE.

The undersigned, having procured a location in the vicinity of Illinois College, proposes to teach young men in the branches requisite to admittance to that Institution. He will, also, teach those who do not contemplate entering College in the branches essetial to a thorough English Education. Convenient rooms can be furnished in the College edifice, upon the same terms as to college students—and board can be procured at a reasonable rate.

There will be FOUR Terms in the year;

The 1st commencing on the 24th February;
" 2d " " 18th May;
" 3d " " 14th September;
" 4th " " 30th November.

VACATIONS.—Six weeks from the 1st of August—one week from 17th February—one week from the 11th May.

TERMS.—$5 00 per quarter in advance.

No deduction will be made for lost time, except during incapacty for attending school through sickness.

Application to be made to the Principal or to any member of the Faculty.

JOHN T. PIERCE.

A STATEMENT

OF THE

COURSE OF STUDIES, EXPENSES, &c.

IN

ILLINOIS COLLEGE.

The Students in this Institution are divided into four Classes, the Freshman, Sophomore, Junior and Senior. Candidates for admission to the Freshman Class will be examined in Adam's Latin Grammar, (Gould's Edition,) or Andrews and Stoddard's Latin Grammar by preference; Virgil; Cicero's Select Orations; Sallust Sophocles' Greek Grammar; Greek Reader, (or Græca Minora and Greek Testament;) Adams' Arithmetic; Geography and English Grammar.

Candidates for an advanced standing, in addition to the preparatory studies, will be examined in the various branches to which the class they propose to enter has attended.

The stated time for admission into College, is on the Monday preceding the Commencement; but candidates may be examined in any other part of the Collegiate Terms.

COURSE OF INSTRUCTION.

The whole course of instruction extends through four years, each class occupying one year, and each year embracing one term or session of forty weeks.

The following scheme gives a view of the studies pursued:—

Freshman Class.

FIRST QUARTER.

Day's Algebra begun; Græca Majora Historians; Eschenburg's Manual of Classical Literature, Classical Geography and Mythology.

SECOND QUARTER.

Day's Algebra finished and reviewed; Homer's Iliad; Eschenburg's Manual, Grecian Antiquities.

THIRD QUARTER.

Playfair's Euclid begun; Folsom's Livy begun; Rhetoric; Eschenburg's Manual, Roman Antiquities.

FOURTH QUARTER.

Playfair's Euclid finished and reviewed; Plane and Spherical Trigonometry; Livy finished; Eschenburg's Manual, Roman Antiquities finished; Elocution.

Sophomore Class.

FIRST QUARTER.

Day's Mathematics, Trigonometry and Mensuration; Græca Majora, Philosophers and Critics; Eschenburg's Manual, Archæology of Grecian literature.

SECOND QUARTER.

Day's Mathematics, Navigation and Surveying; Bridge's Conic Sections begun; Alcestis of Euripides, Prometheus of Æschylus; Greek Lyric Poets, Pindar and others; Eschenburg's Manual, History of Grecian Literature.

THIRD QUARTER.

Bridges Conic Sections finished; Horace begun; Eschenburg's Manual, Archæology of Art.

FOURTH QUARTER.

Olmsted's Natural Philosophy, Vol., I.; Horace finished; Eschenburg's Manual, Archæology and History of Roman Literature.

Junior Class,

FIRST QUARTER.

Olmsted's Natural Philosophy, Vol. II; French Language; History begun; Lectures on Mechanics, Hydrostatics, Electricity and Magnetism.

SECOND QUARTER.

Olmsted's Astronomy; History finished; Lectures on Chemistry.

THIRD QUARTER.

Tacitus' History; Negris' Demosthenes begun; French Language; Lectures on Pneumatics, Acoustics and Optics.

FOURTH QUARTER.

Negris' Demosthenes finished; Tacitus' Germany and Agricola; Cicero de Officiis and Tusculan Questions; Lectures on Mineralogy, Geology and Natural History.

Senior Class.

FIRST QUARTER.

Stewart's Intellectual Philosophy; Hedge's Logic; Selections from Greek Authors.

SECOND QUARTER.

Paley's Natural Theology; Evidences of Christianity, (Paley;) Wayland's Moral Philosophy; Selections from Greek authors; Chemistry; Rhetoric.

THIRD QUARTER.

Wayland's Political Economy; American Constitutional Law; Rhetoric.

FOURTH QUARTER.

Review of the whole course, with semi-weekly examinations before the Faculty.

There will be occasional exercises in written translation from Latin and Greek authors, and in Latin composition. Frequent forensic disputations will also be required from the Junior and Senior classes.

The upper classes attend experimental lectures on Chemistry; and courses of Lectures on Natural Philosophy and Astronomy are delivered to the Junior class. A superior collection of apparatus for this department has been procured from Europe, to which a considerable addition has just been made. Instruction is given in the French language without any extra charge, and also lectures on Mineralogy, Geology, Botany and Natural History.

LECTURES.

The lectures upon Natural Philosophy will commence on the first Monday of the term and continue nine weeks, embracing the topics of Mechanics, Electricity and Magnetism. The lectures upon Chemistry will commence on the tenth Monday of the term and be completed in nine weeks. The lectures upon Natural Philosophy will be resumed on the first Monday of the last half term and be completed in nine weeks, embracing Hydrostatics, Pneumatics, Acoustics, Optics and Astronomy. The lectures upon Mineralogy, Geology and Natural History will commence on the tenth Monday of the last half term and be completed in nine weeks.

RELIGIOUS EXERCISES.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures and Sacred Music, when one of the Faculty officiates, and all the Students are required to be present.

COMMENCEMENT.

The annual Commencement will be held the last Wednesday in June.

TERM AND VACATION.

There is one vacation each year, comprising twelve weeks from the last Wednesday in June. The Term continues from the close of this vacation till Commencement, and of course embraces that portion of the year which is most favorable to health and mental vigor.

EXAMINATIONS.

There will be an examination of a week at the close of each half term. During the ten weeks previous to commencement the Senior class will review the studies of the entire course, and be examined on the same for degrees. A special committee is appointed by the Trustees to attend the examinations.

EXPENSES.

ANNUAL EXPENSES EXCLUSIVE OF VACATIONS:

Tuition, - -	$20 00
Room Rent, - -	10 00
Ordinary Repairs, - -	1 50
Wood and lights for Recitation rooms, and sweeping,	1 50
Board, say,—average, - -	50 00
Washing, about fifty cents per dozen, -	10 00
Total, - - -	$93 00

The price paid for board at the present time is from $1 00 to $1 50 per week. The College Hall is rented to an individual who furnishes board at $1 50 per week. But those who desire it may obtain plainer board at a cheaper rate.

The expenses of books, stationary, fuel and lights, do not admit of an exact statement, but may be estimated from twelve to fifteen dollars per annum—also, the students may be charged a small sum for printing catalogues, schemes, &c; and those attending the Lectures in Chemistry and Natural Philosophy will be charged $2 50 for each course, for the use of apparatus.

With regard to apparel no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are warmly recommended.

2. *Outfit*. The expenses of an outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are a plain table, two or three chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedstead and bed clothing.

With the exception of a bed these articles can be easily purchased here at a reasonable rate. But in all cases when it can be done, it is advisable for a student to bring a bed and bed-clothes with him. The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for a room, or from 5 to 6 dollars for each student.

The furniture, if carefully used, can be sold when no longer needed, with a reasonable deduction. The same is true of books.

A bed and bed-clothes, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the buildings, books, &c. of the Institution, he is liable to be charged to the extent of the damage.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character, and those coming from other colleges are required to bring recommendations from the colleges from which they come.

RELIEF FOR INDIGENT STUDENTS,

AND PAYMENT IN ADVANCE.

All students will be expected at the commencement of each term, to pay in advance, the bills for tuition, room rent and incidental expenses, in all $33 00.

To those who have not the means of defraying their own expenses, the sum of thirty dollars, annually, (equal to tuition and room rent) is at present allowed; provided the number of applicants does not exceed thirty:—and individuals thus receiving assistance give their note as follows:

"For value received, I promise to pay the Treasurer of Illinois College, or order,—dollars on demand, with interest at six per cent from date: Provided, nevertheless, that this obligation be cancelled in case I complete a regular College course at the Institution, and immediately upon graduating, spend three years as a public Instructor, or devote myself to the ministry."

Those who choose to draw books are charged one dollar per term for the use of the library.

MANUAL LABOR AND BENEVOLENT LIBRARY.

Those who wish to defray a part of their expenses by their labor may generally find employment, and obtain a fair compensation for their labor. A benevolent Library has also been founded with a view to aid indigent students. It is designed to contain the text books of the College course. For the use of these books only a small tax is paid.

CABINET OF MINERALOGY AND GEOLOGY.

A cabinet of Mineralogy and Geology is an indispensable requisite to a thorough course of instruction in these departments

of science. Some collections for a cabinet have already been made, and some generous donations have been received from individuals. But the cabinet is still necessarily very imperfect. It is highly important that it should contain, as speedily as possible, specimens of all the rocks, minerals, fossils, shells, &c. of our own State.

The attention of the friends of this institution is particularly invited to this subject. Many may have it in their power, at a very small expense, to collect and send to the college specimens of great value for a cabinet. The specimens should be numbered and accompanied with an account of the locality where each is found.

The Professor of Mineralogy and Geology will be glad to enter into arrangements for exchange with those who are interested in the collection of cabinets. He pledges himself to furnish the specimens of this and the adjoining States to those gentlemen residing at a distance, who are desirous of obtaining them in exchange for those of their own region. Those who are desirous of entering into such an arrangement, may do it by addressing a letter to the Professor of Chemistry, Mineralogy and Geology.

GENERAL RULES.

In all their intercourse with their Instructors, and with each other, the students are expected to observe those principles of benevolence, honor, integrity and affection, which are essential to the welfare of every community, and which are alike founded on the laws of God, and on the reason and conscience of man: in the pursuit of their studies, to exhibit industry, diligence and energy, and to avoid all objects and pursuits, which tend to divide and weaken the mind; to observe the Sabbath, avoid profaneness and vice of every kind, and to abstain from all that tends to injure their own interests or the public good.

PREPARATORY CLASS.

Since the publication of the last Catalogue, the faculty have been induced to take under their instruction a class in those studies in which candidates for admission to the Freshman class are required to be examined. An opportunity will be given to students joining this class to commence the study of Latin at the beginning of the first quarter; and, also, to commence the study of Greek at the beginning of the third quarter; the terms of admission and of payment are the same in this as in the other classes.

For the information of our Patrons is annexed a list of the Graduates of this College from its foundation.

A STATEMENT

OF THE

COURSE OF STUDIES; EXPENSES &C.

IN

ILLINOIS COLLEGE.

The Students in this Institution are divided into four Classes, the Freshman, Sophomore, Junior and Senior. Candidates for admission to the Freshman Class will be examined in Andrews and Stoddard's Latin Grammar; Virgil; Cicero's Select Orations; Sallust; Sophocles' Greek Grammer; Greek Reader; Adams' Arithmetic; Geography and English grammer.

Candidates for an advanced standing, in addition to the preparatory studies, will be examined in the various branches to which the class they propose to enter has attended.

The stated time for admission into College, is on the Monday preceding the Commencement; but candidates may be examined in any other part of the collegiate term.

Course Of Instruction.

The whole course of instruction extends through four years, each class occupying one year, and each year embracing one term or session of forty weeks.

The following scheme gives a view of the studies pursued:—

Freshman Class.

FIRST QUARTER.

Day's Algebra begun; Græca Majora, Historians; Eschenburg's Manual of Classical Literature, Classical Geography and Mythology.

SECOND QUARTER.

Day's Algebra finished and reviewed; Homer's Iliad; Eschenburg's Manual, Grecian Antiquities.

THIRD QUARTER.

Playfair's Euclid begun; Folsom's Livy begun; Rhetoric; Eschenburg's Manual, Roman Antiquities.

FOURTH QUARTER.

Playfair's Euclid finished and reviewed; Plane and Spherical Trigonometry; Livy finished; Eschenburg's Manual, Roman Antiquities finished; Elocution.

Sophomore Class.

FIRST QUARTER.

Day's Mathematics, Trigonometry and Mensuration; Græca Majora, Philosophers and Critics; Eschenburg's Manual, Archæology of Grecian literature.

SECOND QUARTER.

Day's Mathematics, Navigation and Surveying; Bridge's Conic Sections begun; Alcestis of Euripides, Prometheus of Æschylus; Greek Lyric poets, Pindar and others; Eschenburg's Manual, History of Grecian Literature.

THIRD QUARTER.

Bridges Conic Sections finished; Horace begun; Eschenburg's Manual, Archæology of Art.

FOURTH QUARTER.

Olmsted's Natural Philosophy, Vol. 1.; Horace finished; Eschenburg's Manual, Archæology and History of Roman Litterature.

Junior Class.

FIRST QUARTER.

Olmsted's Natural Philosophy, Vol. II; French Language; History begun; Lectures on Mechanics, Hydrostatics, Electricity and Magnetism.

SECOND QUARTER,

Olmsted's Astronomy; History finished; Lectures on Chemistry.

THIRD QUARTER.

Tacitus' History; Negris' Demosthenes begun; French Language; Lectures on Pneumatics, Acoustics and Optics.

FOURTH QUARTER.

Negris' Domosthenes finished; Tacitus' Germany and Agricola; Cicero de Officiis and Tusculan Questions; Lectures on Mineralogy, Geology and Natural History.

Senior Class.

FIRST QUARTER.

Stewart's Intelectual Philosophy; Hedge's Logic; Selections from Greek Authors.

SECOND QUARTER.

Paley's Natural Theology; Evidences of Cristianity, (Paley;) Wayland's Moral Philosophy; Selections from Greek authors; Chemistry;

THIRD QUARTER.

Wayland's Political Economy; American Constitutional Law; Rhetoric.

FOURTH QUARTER.

Review of the whole course, with semi-weekly examinations before the Faculty.

The upper classes attend experimental lectures on Chemistry; and courses of lectures on Natural Philosophy and Astron-

omy are delivered to the Junior class. A superior collection of apparatus for this department has been procured from Europe. Instruction is given in the French language without any extra charge, and also lectures on Mineralogy, Geology, Botany and Natural History.

LECTURES.

The Lectures on Natural Philosophy, embracing Mechanics, Electricity and Magnetism will be continued through the first quarter; on Chemistry through the second quarter; on Hydrostatics, Pneumatics, Acoustics, Optics and Astronomy through the third quarter; and on Mineralogy, Geology and Natural History through the fourth quarter.

RELIGIOUS EXERCISES.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures and Sacred Music, all the students are required to be present.

COMMENCEMENT.

The annual Commencment will be held the last Wednesday in June.

TERM AND VACATION.

There is one vacation each year, comprising twelve weeks from the last Wednesday in June. The Term continues from the close of this Vacation till Commencement, and of course embraces that portion of the year which is most favorable to to health and mental vigor.

EXAMINATIONS.

There will be an examination of a week at the close of each half term. During the ten weeks previous to Commencement the Senior class will review the studies of the entire course, and be examined on the same for degrees. A special committee is appointed by the Trustees to attend the examinations.

EXPENSES.

ANNUAL EXPENSES EXCLUSIVE OF VACATIONS;

Tuition, - -	$20 00
Room Rent, - -	10 00
Ordinary Repairs. - -	1 50
Wood and lights for Recitation rooms, and sweeping,	1 50
Board, say,—average, - -	50 00
Washing, about fifty cents per dozen. -	10 00
Total, - -	$93 00

The price paid for board at the present time is from $1 00 to $1 50 per week. The College Hall is rented to an individual who furnishes board at $1 50 per week. But those who desire it may obtain plainer board at a cheaper rate.

The expenses of books, stationary, fuel and lights, do not admit of an exact statement, but may be estimated from twelve to fifteen dollars per annum—also, the students may be charged a small sum for printing catalogues, schemes, &c; and those attending the Lectures in Chemistry and Natural Philosophy will be charged $2 50 for the use of apparatus.

With regard to apparel no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are earnestly recommended.

2. *Outfit.* The expenses of outfit are cheifly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are a plain table, two or three chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedstead and bed clothing.

With the exception of a bed these articles can be easily pur-

chased here at reasonable rates. But in all cases when it can be done, it is advisable for a student to bring a bed and and bedclothes with him The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for a room, or from 5 to 6 dollars for each student.

The furniture, if carefully used, can be sold when no longer needed, with a reasonable deduction. The same is true of books.

A bed and bed-clothes, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the buildings, books, &c. of the Institution, he is liable to be charged to the extent of the damage.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character, and those coming from other colleges are required to bring recommendations from the colleges from which they come.

RELIEF FOR INDIGENT STUDENTS.

AND PAYMENT IN ADVANCE.

All Students will be expected at the commencement of each term, to pay in advance, the bills for tuition, room rent and incidental expenses, in all $33 00.

Indigent students are permitted, however, to settle their advance bills by note, on condition of holding themselves responsible to redeem their notes by their labor during the term, if required by the Faculty or Agent. All others who wish to defray any part of their expenses, can generally find employment and obtain a fair compesation for their labor.

LIBRARIES.

A small Benevolent Library of text books in the College course is open for the use of indigent students, for which only a small tax is paid.

Those who choose, may draw books from the College Library, by paying one dollar per term.

CABINET ON MINERALOGY AND GEOLOGY.

A cabinet of Mineralogy and Geology is an indispensable requisite to a thorough course of instruction in these departments of science. Some collections for a cabinet have already been made and some generous donations have been received from individuals. But the cabinet is still necessarily very imperfect. It is highly important that it should contain as speedily as possible, specimens of all the rocks, minerals, fossils, shells, &c. of our own State.

The attention of the friends of this institution is particularly invited to this subject. Many may have it in their power, at a very small expense, to collect and send to the college specimens of great value for a cabinet. The specimens should be numbered and accompanied with an account of the locality where each is found.

The Professor of Mineralogy and Geology will be glad to enter into arrangements for exchange with those who are interested in the collection of cabinets. He pledges himself to furnish the specimens of this and the adjoining States to those gentlemen residing at a distance, who are desirous of obtaining them in exchange for those of their own region. Those who are desirous of entering into such an arrangement, may do it by addressing a letter to the Professor of Chemistry, Mineralogy and Geology.

GENERAL RULES.

By connecting themselves with the Institution, the students are understood as pledging themselves so long as they remain, to abstain from intemperance, profanity, disregard of the Sa-

bath and all other vices injurious to themselves or others, to be prompt, diligent and faithful, in the discharge of every duty and in all respects to demean themselves with candor, benevolence and honor, both towards their Instructors and Fellows.

PREPARATORY DEPARTMENT.

Students in the preparatory department are instructed in the several studies and authors required for admission to College, by competent instructors and under the supervision of the Faculty. They may advance through the whole or any part of the College Course as soon as they are prepared for those studies they may choose to pursue.

PRESENT CONDITION OF THE COLLEGE

It is well known, at home and abroad, that all the pecuniary interests of the College are suffering severely from both the past loss and present want of funds. Its trials and struggles in this respect, though always great, have never been so severe as at present. On the other hand, its literary prosperity and its prospects of present and future usefulness, were never more bright and cheering than in this same hour of pecuniary peril. Under these circumstances its guardians and friends feel fully determined, to make every effort and every sacrifice, to sustain it through the storm, in full confidence that their friends and fellow citizens will most cheerfully appear for the rescue of an enterprise so indispensable to the the well being of present and coming generations, at the earliest possible hour.

For the information of our Patrons is annexed a list of the Graduates of this College from its foundation.

CLASS—1835.

J. Edwards Spilman, Richard Yates,

THE LIBRARY OF ...
MAR 24 1931
UNIVERSITY OF ILLINOIS

CLASS—1836.

A STATEMENT

OF THE

COURSE OF STUDIES, EXPENSES &C.

IN

ILLINOIS COLLEGE.

The Students in this Institution are divided into four Classes, the Freshman, Sophomore, Junior and Senior. Candidates for admission to the Freshman Class will be examined in Andrews and Stoddard's Latin Grammar; Virgil; Cicero's Select Orations; Sallust; Sophocles' Greek Grammer; Greek Reader; Adams' Arithmetic; Geography and English grammer.

Candidates for an advanced standing, in addition to the preparatory studies, will be examined in the various branches to which the class they propose to enter has attended.

The stated time for admission into College, is on the Monday preceding the Commencement; but candidates may be examined in any other part of the collegiate term.

Course Of Instruction.

The whole course of instruction extends through four years, each class occupying one year, and each year embracing one term or session of forty weeks.

The following scheme gives a view of the studies pursued:—

Freshman Class.

FIRST QUARTER.

Day's Algebra begun; Græca Majora, Historians; Eschenburg's Manual of Classical Literature, Classical Geography and Mythology.

SECOND QUARTER.

Day's Algebra finished and reviewed; Homer's Iliad; Eschenburg's Manual, Grecian Antiquities.

THIRD QUARTER.

Playfair's Euclid begun; Folsom's Livy begun; Rhetoric; Eschenburg's Manual, Roman Antiquities.

FOURTH QUARTER.

Playfair's Euclid finished and reviewed; Plane and Spherical Trigonometry; Livy finished; Eschenburg's Manual, Roman Antiquities finished; Elocution.

Sophomore Class.

FIRST QUARTER.

Day's Mathematics, Trigonometry and Mensuration; Græca Majora, Philosophers and Critics; Eschenburg's Manual, Archæology of Grecian literature.

SECOND QUARTER.

Day's Mathematics, Navigation and Surveying; Bridge's Conic Sections begun; Alcestis of Euripides, Prometheus of Æschylus; Greek Lyric poets, Pindar and others; Eschenburg's Manual, History of Grecian Literature.

THIRD QUARTER.

Bridges Conic Sections finished; Horace begun; Eschenburg's Manual, Archæology of Art.

FOURTH QUARTER.

Olmsted's Natural Philosophy, Vol. 1.; Horace finished; Eschenburg's Manual, Archæology and History of Roman Litterature.

Junior Class.

FIRST QUARTER.

Olmsted's Natural Philosophy, Vol. II; French Language; History begun; Lectures on Mechanics, Hydrostatics, Electricity and Magnetism.

SECOND QUARTER,

Olmsted's Astronomy; History finished; Lectures on Chemistry.

THIRD QUARTER.

Tacitus' History; Negris' Demosthenes begun; French Language; Lectures on Pneumatics, Acoustics and Optics.

FOURTH QUARTER.

Negris' Domosthenes finished; Tacitus' Germany and Agricola; Cicero de Officiis and Tusculan Questions; Lectures on Mineralogy, Geology and Natural History.

Senior Class.

FIRST QUARTER.

Stewart's Intelectual Philosophy; Hedge's Logic; Selections from Greek Authors.

SECOND QUARTER.

Paley's Natural Theology; Evidences of Cristianity, (Paley;) Wayland's Moral Philosophy; Selections from Greek authors; Chemistry;

THIRD QUARTER.

Wayland's Political Economy; American Constitutional Law; Rhetoric.

FOURTH QUARTER.

Review of the whole course, with semi-weekly examinations before the Faculty.

The upper classes attend experimental lectures on Chemistry; and courses of lectures on Natural Philosophy and Astron-

omy are delivered to the Junior class. A superior collection of apparatus for this department has been procured from Europe. Instruction is given in the French language without any extra charge, and also lectures on Mineralogy, Geology, Botany and Natural History.

LECTURES.

The Lectures on Natural Philosophy, embracing Mechanics, Electricity and Magnetism will be continued through the first quarter; on Chemistry through the second quarter; on Hydrostatics, Pneumatics, Acoustics, Optics and Astronomy through the third quarter; and on Mineralogy, Geology and Natural History through the fourth quarter.

RELIGIOUS EXERCISES.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures and Sacred Music, all the students are required to be present.

COMMENCEMENT.

The annual Commencment will be held the last Wednesday in June.

TERM AND VACATION.

There is one vacation each year, comprising twelve weeks from the last Wednesday in June. The Term continues from the close of this Vacation till Commencement, and of course embraces that portion of the year which is most favorable to to health and mental vigor.

EXAMINATIONS.

There will be an examination of a week at the close of each half term. During the ten weeks previous to Commencement the Senior class will review the studies of the entire course, and be examined on the same for degrees. A special committee is appointed by the Trustees to attend the examinations.

EXPENSES.

ANNUAL EXPENSES EXCLUSIVE OF VACATIONS;

Tuition, - -	$20 00
Room Rent, - -	10 00
Ordinary Repairs, - -	1 50
Wood and lights for Recitation rooms, and sweeping,	1 50
Board, say,—average, - -	50 00
Washing, about fifty cents per dozen. -	10 00
Total, - -	$93 00

The price paid for board at the present time is from $1 00 to $1 50 per week. The College Hall is rented to an individual who furnishes board at $1 50 per week. But those who desire it may obtain plainer board at a cheaper rate.

The expenses of books, stationary, fuel and lights, do not admit of an exact statement, but may be estimated from twelve to fifteen dollars per annum—also, the students may be charged a small sum for printing catalogues, schemes, &c; and those attending the Lectures in Chemistry and Natural Philosophy will be charged $2 50 for the use of apparatus.

With regard to apparel no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are earnestly recommended.

2. *Outfit.* The expenses of outfit are cheifly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are a plain table, two or three chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedstead and bed clothing.

With the exception of a bed these articles can be easily pur-

chased here at reasonable rates. But in all cases when it can be done, it is advisable for a student to bring a bed and and bedclothes with him The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for a room, or from 5 to 6 dollars for each student.

The furniture, if carefully used, can be sold when no longer needed, with a reasonable deduction. The same is true of books.

A bed and bed-clothes, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the buildings, books, &c. of the Institution, he is liable to be charged to the extent of the damage.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character, and those coming from other colleges are required to bring recommendations from the colleges from which they come.

RELIEF FOR INDIGENT STUDENTS.

AND PAYMENT IN ADVANCE.

All Students will be expected at the commencement of each term, to pay in advance, the bills for tuition, room rent and incidental expenses, in all $33 00.

Indigent students are permitted, however, to settle their advance bills by note, on condition of holding themselves responsible to redeem their notes by their labor during the term, if required by the Faculty or Agent. All others who wish to defray any part of their expenses, can generally find employment and obtain a fair compesation for their labor.

LIBRARIES.

A small Benevolent Library of text books in the College course is open for the use of indigent students, for which only a small tax is paid.

Those who choose, may draw books from the College Library, by paying one dollar per term.

CABINET ON MINERALOGY AND GEOLOGY.

A cabinet of Mineralogy and Geology is an indispensable requisite to a thorough course of instruction in these departments of science. Some collections for a cabinet have already been made and some generous donations have been received from individuals. But the cabinet is still necessarily very imperfect. It is highly important that it should contain as speedily as possible, specimens of all the rocks, minerals, fossils, shells, &c. of our own State.

The attention of the friends of this institution is particularly invited to this subject. Many may have it in their power, at a very small expense, to collect and send to the college specimens of great value for a cabinet. The specimens should be numbered and accompanied with an account of the locality where each is found.

The Professor of Mineralogy and Geology will be glad to enter into arrangements for exchange with those who are interested in the collection of cabinets. He pledges himself to furnish the specimens of this and the adjoining States to those gentlemen residing at a distance, who are desirous of obtaining them in exchange for those of their own region. Those who are desirous of entering into such an arrangement, may do it by addressing a letter to the Professor of Chemistry, Mineralogy and Geology.

GENERAL RULES.

By connecting themselves with the Institution, the students are understood as pledging themselves so long as they remain, to abstain from intemperance, profanity, disregard of the Sa-

bath and all other vices injurious to themselves or others, to be prompt, diligent and faithful, in the discharge of every duty and in all respects to demean themselves with candor, benevolence and honor, both towards their Instructors and Fellows.

PREPARATORY DEPARTMENT.

Students in the preparatory department are instructed in the several studies and authors required for admission to College, by competent instructors and under the supervision of the Faculty. They may advance through the whole or any part of the College Course as soon as they are prepared for those studies they may choose to pursue.

PRESENT CONDITION OF THE COLLEGE

It is well known, at home and abroad, that all the pecuniary interests of the College are suffering severely from both the past loss and present want of funds. Its trials and struggles in this respect, though always great, have never been so severe as at present. On the other hand, its literary prosperity and its prospects of present and future usefulness, were never more bright and cheering than in this same hour of pecuniary peril. Under these circumstances its guardians and friends feel fully determined, to make every effort and every sacrifice, to sustain it through the storm, in full confidence that their friends and fellow citizens will most cheerfully appear for the rescue of an enterprise so indispensable to the the well being of present and coming generations, at the earliest possible hour.

For the information of our Patrons is annexed a list of the Graduates of this College from its foundation.

A STATEMENT

OF THE

COURSE OF STUDIES, EXPENSES

&C., IN

ILLINOIS COLLEGE.

The Students of this Institution are divided into four Classes, the Freshman, Sophomore, Junior, and Senior.—Candidates for admission to the Freshman Class will be examined in Andrews' and Stoddard's Latin Grammar; Virgil; Cicero's Select Orations; Sallust; Sophocles' Greek Grammar; Greek Reader; Adams' Arithmetic; Geography; and English Grammar.

Candidates for an advanced standing, in addition to the preparitory studies, will be examined in the various branches to which the Class they propose to enter has attended.

The stated time for admission into College, is on the Monday preceding the Commencement; but candidates may be examined in any other part of the collegiate term.

Course of Instruction.

The whole course of instruction extends through four years, each class occupying one year, and each year embracing one term or session of forty weeks.

The following scheme gives a view of the studies pursued:—

Freshman Class.

FIRST QUARTER.

Day's Algebra begun; Græca Majora, Historians; Eschenburg's Manual of Classical Literature, Classical Geography and Mythology.

SECOND QUARTER.

Day's Algebra finished and reviewed; Homer's Iliad; Eschenburg's Manual, Grecian Antiquities.

THIRD QUARTER.

Playfair's Euclid begun; Folsom's Livy begun; Rhetoric; Eschenburg's Manual, Roman Antiquities.

FOURTH QUARTER.

Playfair's Euclid finished and reviewed; Plane and Spherical Trigonometry; Livy finished, Eschenburg's Manual, Roman Antiquities finished; Elocution.

Sophomore Class.

FRST QUARTER.

Day's Mathematics, Trigonometry and Mensuration; Græca Majora, Philosophers and Critics; Eschenburg's Manual, Archæology of Grecian literature.

SECOND QUARTER.

Day's Mathematics, Navigation and Surveying; Bridge's Conic Sections begun; Alcestis of Euripides, Prometheus of Æschylus; Greek Lyric poets, Pindar and others; Eschenburg's Manual, History of Grecian Literature.

THIRD QUARTER.

Bridge's Conic Sections finished; Horace begun; Eschenburg's Manual, Archæology of Art.

FOURTH QUARTER.

Olmsted's Natural Philosophy, Vol. I., Horace finished; Eschenburg's Manual, Archæology and History of Roman Literature.

Junior Class.

FIRST QUARTER.

Olmsted's Natural Philosophy, Vol. II; French Language; History begun; Lectures on Mechanics, Hydrostatics, Electricity and Magnetism.

SECOND QUARTER.

Olmsted's Astronomy; History finished; Lectures on Chemistry.

THIRD QUARTER.

Tacitus' History; Negris' Demosthenes begun; French Language; Lectures on Pneumatics, Acoustics and Optics.

FOURTH QUARTER.

Negris' Demosthenes finished; Tacitus' Germany and Agricola; Cicero de Officiis and Tusculan Questions; Lectures on Minerology, Geology and Natural History.

Senior Class.

FIRST QUARTER.

Stewart's Intellectual Philosophy; Hedge's Logic; Selections from Greek Authors.

SECOND QUARTER.

Paley's Natural Theology; Evidences of Christianity, (Paley;) Wayland's Moral Philosophy, Selections from Greek Authors.

THIRD QUARTER.

Wayland's Political Economy; American Constitutional Law; Rhetoric.

FOURTH QUARTER.

American Constitutional Law finished, and final Examination.

LECTURES.

Lectures are delivered on the following subjects:

Rhetoric and Elocution.

All the branches of Natural Philosophy.

Chemistry.

Natural History, embracing an outline of Mineralogy and Geology, a General Classification of Organized Beings; together with a general view of Vegetable and Animal Phisiology.

EXAMINATIONS.

There will be an examination of a week at the close of each half term. The Senior class will be examined in the entire course of study previous to recommendation for degrees. A special committee is appointed by the Trustees to attend the examinations.

RELIGIOUS EXERCISES.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures and Sacred Music; all the students are required to be present.

COMMENCEMENT.

The annual Commencement will be held the last Wednesday in June.

TERM AND VACATION.

There is one vacation in each year, comprising twelve weeks from the last Wednesday in June. The Term continues from this Vacation till Commencement, and of course embraces that portion of the year which is most favorable to health and mental vigor.

EXPENSES.

ANNUAL EXPENSES EXCLUSIVE OF VACATIONS.

Tuition - - - - - - - -	$20 00
Room Rent, - - - - - - -	10 00
Ordinary Repairs, - - - - - -	2 50
Wood and lights for Recitation rooms, & sweeping	2 50
Board, say—average, - - - - -	50 00
Washing, about fifty cents per dozen. - - -	10 00
Total.	$95 00

The cost for board at the present time is from 50 cents to $1 50 per week.

The expenses of books, stationary, fuel and lights, do not admit of an exact statement, but may be estimated from twelve to fifteen dollars per annum—also the students may be charged a small sum for printing catalogues, schemes &c; and those attending the Lectures in Chemistry and Natural Philosophy will be charged $2 50 for the use of apparatus.

With regard to apparel no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainess and economy in this particular are earnestly recommended.

2. Outfit. The expenses of outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of the room being expected to defray his part of the expense. The most essential articles are a plain table, two or three chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedstead and bed clothing.

With the exception of a bed these articles can be easily purchased here at reasonable rates. But in all cases when it can be done, it is advisable for a student to bring a bed and bedclothes with him. The expenses of the other articles must vary with the student's habits of economy. For articles of a plain and suitable kind it will be from 9 to 12 dollars for a room, or from 5 to 6 dollars for each student.

The furniture, if carefully used, can be sold when [illegible]

longer needed, with a reasonable deduction. The same is true of books.

A bed and bed-clothes, if purchased here, will cost from 10 to 30 dollars.

If any student needlessly injures the buildings, books &c. of the Institution, he is liable to be charged to the extent of the damage.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character, and those coming from other colleges are required to bring recommendations from the colleges from which they come.

RELIEF FOR INDIGENT STUDENTS,

AND PAYMENT IN ADVANCE.

All students will be expected at the commencement of each term, to pay in advance, the bills for tuition, room rent and incidental expenses, in all $35.

Indigent students are permitted, however, to settle their advance bills by note, on condition of holding themselves responsible to redeem their notes by their labor during the term, if required by the Faculty or Agent. All others who wish to defray any part of their expenses, can generally find employment and obtain fair compensation for their labor.

LIBRARIES.

A small Benevolent Library of text books in the College course is open for the use of indigent students, for which only a small tax is paid.

Those who choose, may draw books from the College Library, by paying one dollar per term.

CABINET ON MINERALOGY AMD GEOLOGY.

A cabinet of Mineralogy and Geology is an indispensable requisite to a thorough course of instruction in these departments of science. Some collections for a cabinet have already been made and some generous donations have been received from individuals. But the cabinet is still necessarily very imperfect. It is highly important that it should contain as speedily as posible, specimens of all the rocks, minerals, fossil, shells &c. of our own State.

The attention of the friends of this institution is particularly invited to the subject. Many may have it in their power, at a very small expense, to collect and send to the College, specimens of great value for a cabinet. The specimens should be numbered, and accompanied with an account of the locality where each is found.

The Professor of Chemistry and Natural History will be glad to enter into arrangements for exchange with those who are interested in the collection of cabinets. He pledges himself to furnish the specimens of this and the adjoining States to those gentlemen residing at a distance, who are desirous of obtaining them in exchange for those of their own region. Those who are desirous of entering into such an arrangement, may do it by addressing a letter to the Professor of Chemistry and Natural History.

GENERAL RULES.

By connecting themselves with the Institution, the students are understood as pledging themselves so long as they remain, to abstain from intemperance, profanity, disregard of the Sabbath, and all other vices injurious to themselves or others; to be prompt, diligent and faithful, in the discharge of every duty; and in all respects, to demean themselves with candor, benevolence and honor, both towards their Instructors and Fellows.

PREPARATORY DEPARTMENT.

Students in the Preparatory Department are instructed

in the several studies and authors required for admission to College, by competent instructors and under the supervision of the Faculty. They may advance through the whole or any part of the College course as soon as they are prepared for those studies they may choose to pursue.

PRESENT CONDITION OF THE COLLEGE.

It is well known at home and abroad, that all the pecuniary interests of the College are suffering severely from both the past loss and present want of funds. Its trials and struggles in this respect, though always great, have never been so severe as at present. On the other hand, its literary prosperity and its prospects of present and future usefulness, were never more bright and cheering than in this hour of pecuniary peril. Under these circumstances, its guardians and friends feel fully determined, to make every effort and every sacrifice, to sustain it through the storm, in full confidence that their friends and fellow citizens will most cheerfully appear for the rescue of an enterprise so indispensable to the well being of present and coming generations, at the earliest possible hour.

THE LIBRARY
MAR 4 1901
UNIVERSITY

MEDICAL SCHOOL.

It is the purpose of the Trustees of this Institution to establish a Medical Department at the earliest possible day. It is expected that there will be decisive action on the subject, at the next meeting of the Trustees in June next; and it is highly probable that a full course of Medical Instruction will be given in this Institution during the next winter.

If the Trustees shall organize a Medical Department at their next meeting, their action on the subject will be immediately made public; so that Medical Students may have time to make their arrangements for attending the Lectures during the next winter.

A STATEMENT OF THE

Terms of Admission, Course of Studies, etc.

AT ILLINOIS COLLEGE.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character; and those coming from other colleges, are required to bring recommendations from the colleges from which they come.

There is a Preparatory Department connected with the Institution, which is under the immediate supervision of the Faculty, and in which students are instructed in those studies and authors of which knowledge is required for admission to College.

The students of the Collegiate Department are divided into four classes; the Freshman, Sophomore, Junior and Senior.

Candidates for admission to the Freshman class are examined in Andrews' and Stoddard's Latin Grammar; Virgil; Cicero's Select Orations; Sallust; Sophocles' Greek Grammar; Greek Reader; Adams' Arithmetic; Geography; and English Grammar. Candidates for an advanced standing are examined in the preparatory studies and in the studies to which the class which they propose to enter has attended.

The stated time for examination for admission to College is on the Monday preceding the commencement, but candidates may be examined in any other part of the Collegiate term.

COURSE OF STUDY.

The whole course of study extends through four years, each class occupying one year, and each year embracing one term of forty weeks.

The following scheme gives a view of the studies pursued:

FRESHMAN CLASS.

FIRST QUARTER.

Day's Algebra, begun; Græca Majora, Historians; Eschenburg's Manual of Classical Literature, Classical Geography and Mythology.

SECOND QUARTER.

Day's Algebra, finished and reviewed; the Iliad; Eschenburg's Manual, Grecian Antiquities.

THIRD QUARTER.

Playfair's Euclid, begun; Folsom's Livy, begun; Eschenburg's Manual, Roman Antiquities; Elocution.

FOURTH QUARTER.

Playfair's Euclid, finished and reviewed; Plane and Spherical Trigonometry; Livy, finished; Eschenburg's Manual, Roman Antiquities, finished; Elocution.

SOPHOMORE CLASS.

FIRST QUARTER.

Day's Mathematics, Trigonometry and Mensuration; Græca Majora, Philosophers and Critics; Eschenburg's Manual, Archæology of Grecian Literature.

SECOND QUARTER.

Day's Mathematics, Navigation and Surveying; Bridge's Conic Sections, begun; Alcestis of Euripides; Prometheus of Æschylus; Greek Lyric Poets, Pindar and others; Eschenburg's Manual, History of Grecian Literature.

THIRD QUARTER.

Bridge's Conic Sections, finished; Horace, begun; Eschenburg's Manual, Archæolgy of Art.

FOURTH QUARTER.

Olmsted's Natural Philosophy, vol. i.; Horace, finished; Eschenburg's Manual, Archæology and History of Roman Literature.

JUNIOR CLASS.

FIRST QUARTER.

Olmsted's Natural Philosophy, vol. ii.; French Language; History, begun; Lectures on Mechanics, Hydrostatics, Electricity, and Magnetism.

SECOND QUARTER.

Olmsted's Astronomy; History, finished; Lectures on Chimistry.

THIRD QUARTER.

Tacitus' History; Negris' Demosthenes, begun; French Language; Lectures on Pneumatics, Acoustics, and Optics.

FOURTH QUARTER.

Negris' Demosthenes, finished; Tacitus' Germany and Agricola; Cicero de Officiis, and Tusculan Questions; Lectures on Mineralogy, Geology, and Natural History.

SENIOR CLASS.

FIRST QUARTER.

Stewart's Intellectual Philosophy; Hedges' Logic; Selections from Greek authors.

SECOND QUARTER.

Paley's Natural Theology; Evidences of Christianity, (Paley;) Wayland's Moral Science; Selections from Greek authors.

THIRD QUARTER.

Wayland's Political Economy; American Constitutional Law; Rhetoric.

FOURTH QUARTER.

American Constitutional Law, finished, and Final Examination.

LECTURES.

Lectures are delivered by Prof. Sturtevant, on all the branches of Natural Philosophy; by Prof. Turner, on Rhetoric and Elocution; by Prof. Adams, on Chimistry, and on Natural History, embracing an outline of Mineralogy and Geology, a general classification of Organized Beings, together with a general view of Vegetable and Animal Physiology.

EXAMINATIONS.

There is an Examination of a week at the close of each half term. The senior class are examined in the entire course of Study previous to recommendation for degrees. A special committee is appointed by the Trustees to attend the examinations.

COMMENCEMENT, TERM AND VACATION.

The annual Commencement is held on the last Wednesday in June. After Commencement there is a vacation of twelve weeks, and the term continues till the next Commencement, embracing that portion of the year which is most favorable to health and mental vigor.

EXPENSES.

ANNUAL EXPENSES EXCLUSIVE OF VACATION.

Tuition,	$20 00	
Room rent,	10 00	
Ordinary repairs,	2 50	
Wood and lights for Recitation rooms, etc.	2 50	
Board, say average,	50 00	
Washing, about 50 cents per dozen,	10 00	
Total,		$95 00

The cost of board, at the present time, is from 50 cents to $1 50 per week. The expenses of books, stationery, fuel and lights, do not admit of an exact statement, but may be estimated at from twelve to fifteen dollars per annum; also, the students may be charged a small sum for printing catalogues, schemes, etc.; and those attending the Lectures in Chimistry and Natural Philosophy, are charged $2 50 for the use of apparatus.

With regard to apparel, no general estimate can be made, as it must always depend upon the choice of each individual. It is sufficient to say, that plainness and economy in this particular are earnestly recommended.

Outfit.—The expenses of outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of a room being expected to defray his part of the expense. The most essential articles are a plain table, two or three chairs, a pail, a wash-bowl and pitcher, andirons, shovel and tongs, bedstead and bedding. With the exception of a bed, these articles can be easily purchased here at reasonable rates. A bed and bed clothes, if purchased here, will cost from ten to thirty dollars; but in all cases when it can be done, it is advisable for a student to bring a bed and bed clothes with him. The expense of the other articles must vary with the student's habits of economy. For articles of plain and suitable kind, it will cost from nine to twelve dollars for a room; or from five to six dollars for each student. The furniture, if carefully used, can be sold, when no longer needed, with a reasonable deduction. The same is true of books.

If any student needlessly injure the buildings, books, or other property of the Institution, he is liable to be charged with the amount of the damage.

PAYMENT IN ADVANCE, AND RELIEF FOR INDIGENT STUDENTS.

All students are expected at the commencement of each term to pay in advance the bills for tuition, room-rent and incidental expenses, in all $35.

Indigent students are permitted, however, to settle their bills in advance by note, on condition of holding themselves ready to redeem their notes by their labor during the term, if required so to do by the Faculty or Agent. All others who wish to defray any part of their expenses can generally find employment, and obtain fair compensation for their labor.

LIBRARIES.

A small library of the text books used in the College course is open for the use of indigent students, for which only a small tax is paid. Benevolent individuals can greatly assist such students by contributing books to this library, as the expense of books often draws heavily upon their slender means.

Those who choose may draw books from the College Library (of about 2,300 volumes) by paying one dollar per term.

RELIGIOUS EXERCISES.

Public prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures and sacred music, at which all the students are required to be present.

There are religious exercises in the Chapel on every Sabbath, at which all the students are required to be present, except such as, from conscientious scruples, prefer to

attend some other place of worship; such, on producing a request to that effect from their parents or guardians, or at their own request, if of age, are allowed to attend the place of worship they prefer.

DISCIPLINE AND GENERAL RULES.

A record is kept by the Faculty, in which are entered weekly the grade of scholarship of the student, his absences from the exercises of the Institution, and such other facts as are worthy of notice with respect to his general deportment. From this record a semi-annual report is made out and sent to the parent or guardian of each student. In case of deficiency in scholarship, negligence in study, irregularity in attendance upon the exercises of the Institution, or improper conduct, the student will be privately admonished, and the parent or guardian will be promptly informed of the fact. It is the object of this arrangement to keep parents and guardians accurately informed with regard to their sons and wards in this Institution, and thus to secure their co-operation with the Faculty in a mild system of discipline. Whenever it is ascertained that a student is deriving no advantage from his connection with the Institution, or is pursuing courses injurious to himself or his fellow-students, his parent or guardian will be promptly addressed on the subject, and requested to remove him from the Institution.

By connecting themselves with the Institution, students are understood as pledging themselves, so long as they remain, to abstain from intemperance, profanity, disregard of the Sabbath, and all other vices injurious to themselves or others; to be prompt, diligent and faithful, in the discharge of every duty; and in all respects, to demean themselves with candor, benevolence, and honor, both towards their Instructors and fellows.

PRESENT CONDITION OF THE COLLEGE.

It is well known at home and abroad, that all the pecuniary interests of the College are suffering severely both from the past loss and present want of funds. Its trials and struggles in this respect, though always great, have never been so severe as at present. On the other hand, its literary prosperity and its prospects of present and future usefulness were never more bright and cheering than in this hour of pecuniary peril. Under these circumstances, its guardians and friends feel fully determined to make every effort and every sacrifice to sustain it through the storm, in full confidence that their friends and fellow-citizens will most cheerfully appear, at the earliest possible hour, for the rescue of an enterprise so indispensable to the well being of the present and coming generations.

Medical School.

LECTURES.

The course of Lectures commences annually on the first of November, and continues sixteen weeks. The cost of tickets for admission to the full course of Lectures is $60 00; Tickets for Private Dissections, $5 00; Graduation Fee, including Diploma, $10 00.

N. B. Students preparing for a missionary life, and wishing to pursue medical studies for that purpose, are admitted to the lectures free of expense.

DEGREES.

The following qualifications, and compliance with the following requisitions, entitle a young gentleman to the degree of Doctor of Medicine from this Institution.

1. He must possess a competent acquaintance with the Latin language, and a sufficient knowledge of all the usual branches of an English education.

2. He must have pursued a thorough course of study with some regular practitioner.

3. He must have attended two full courses of medical lectures, the last of which must be at this institution: *Provided*, however, that experience in the practice of medicine may be accepted in the place of one course of lectures.

4. He must pass a satisfactory examination in all the branches of medical study, before the Medical Faculty, assisted by a board of censors, annually appointed for that purpose by the Trustees.

5. He must publicly read and defend a dissertation on some medical subject.

N. B. This Institution does not require any definite term

of study as a condition of graduation. A thorough knowledge of all the branches of medical science, whether acquired in a longer or shorter time, must, however, be exhibited at the examination.

Candidates for the degree of Doctor of Medicine are examined at the close of each course of lectures.

Degrees will be conferred at the close of the lectures, and at the annual Commencement of the College on the last Wednesday of June.

ADVANTAGES.

Belonging to the anatomical department is a very good cabinet of preparations, consisting of connected skeletons, —separate bones of all the parts,—complete preparations of the blood-vessels, nerves, muscles, genital organs of both sexes, organs of the voice, together with the more important glands and viscera. To these may be added the excellent anatomical plates of Bongery and Jacob, and Weber's full size copperplate engravings.

The Chimical department is amply supplied with apparatus for illustrating all the principles of Chimical Philosophy.

A full set of plates of Pathological Anatomy will be procured before the next course of lectures.

A superior set of apparatus and plates for illustrating Practical Obstetrics, is provided for that department.

There is a respectable Medical Library belonging to this Institution, embracing the best modern works upon the various branches of medicine. Students will also have access to the private libraries of the Professors, which contain the best medical periodicals in the French, German, and English languages.

Arrangements are made for an ample supply of fresh subjects for dissection from abroad; which will be furnished at cost to private classes.

In order to impart practical instruction in the examination of patients, in the use of the Stethoscope, and in other matters of practical importance, the Professors of the Theory and Practice of Medicine, and of Surgery, will be ready on Monday and Tuesday of each week to attend at the Dispensary such patients as can be taken to the College, giving advice and performing operations gratis, before the class.

In addition to the regular course of lectures, a course of instruction will be continued through the year to those students who may find it to their advantage to remain on the ground. Medical students will have the opportunity of pursuing any study they may choose with the College classes, and of attending the lectures on Natural Philosophy and Natural History. The philosophical apparatus is one of the best collections in the United States, having been obtained at Paris, at great expense. The price charged for admission to a course of lectures, on the above subjects, is only $2 50.

N. B.—It is recommended to students to come supplied with text books in the various departments of study.

BOARD, RENT, &c.

Board may be obtained at the College boarding-house, for $1 50 per week, if paid in advance. Twenty or thirty students can be accommodated with rooms in the College buildings, or in houses near the College premises, at a low rent, by sending in their names before the first of October next. Preference will be given to those who apply first.

Board, and rooms ready furnished, may be obtained in the village of Jacksonville, at from $2 50 to $3 50 per week. Students may save more than half the expense of board by taking a plain fare at their rooms.

N. B.—Applications for rooms, and letters of inquiry, may be addressed to Samuel Adams, M. D., Jacksonville, Illinois.

A STATEMENT OF THE

Terms of Admission, Course of Studies, &c.

AT ILLINOIS COLLEGE.

TERMS OF ADMISSION.

No students are received under the age of fourteen years. Every applicant for admission is expected to furnish satisfactory testimonials of good moral character; and those coming from other colleges, are required to bring recommendations from the colleges from which they come.

There is a Preparatory Department connected with the Institution, which is under the immediate supervision of the Faculty, and in which students are instructed in those studies and authors of which knowledge is required for admission to College.

The students of the Collegiate Department are divided into four classes; Freshman, Sophomore, Junior, and Senior.

Candidates for admission to the Freshman class are examined in Andrews' and Stoddard's Latin Grammar; Virgil; Cicero's Select Orations; Sallust; Sophocles' Greek Grammar; Greek Reader; Adams' Arithmetic; Geography: and English Grammar. Candidates for an advanced standing are examined in the preparatory studies and in the studies to which the class which they propose to enter has attended.

The stated time for examination for admission to College is on the Monday preceding the commencement, but candidates may be examined in any other part of the collegiate term.

COURSE OF STUDY.

The whole course of study extends through four years, each class occupying one year, and each year embracing one term of forty weeks.

The following scheme gives a view of the studies pursued:

FRESHMAN CLASS.

FIRST QUARTER.

Day's Algebra, begun; Græca Majora, Historians; Eschenburg's Manual of Classical Literature, Classical Geography and Mythology.

SECOND QUARTER.

Day's Algebra, finished and reviewed; the Iliad: Eschenburg's Manual, Grecian Antiquities.

THIRD QUARTER.

Playfair's Euclid, begun; Folsom's Livy, begun; Eschenburg's Manual, Roman Antiquities; Elocution.

FOURTH QUARTER.

Playfair's Euclid, finished and reviewed; Plane and Spherical Trigonometry; Livy, finished; Eschenburg's Manual, Roman Antiquities, finished: Elocution.

SOPHOMORE CLASS.

FIRST QUARTER.

Day's Mathematics, Trigonometry and Mensuration Græca Majora, Philosophers and Critics; Eschenburg's Manual, Archæology of Grecian Literature.

SECOND QUARTER.

Day's Mathematics, Navigation and Surveying; Bridge's Conic Sections, begun; Alcestis of Euripides Prometheus of Æschylus; Greek Lyric Poets, Pindar and others; Eschenburg's Manual, History of Grecian Literature.

THIRD QUARTER.

Bridge's Conic Sections, finished; Horace, begun; Eschenburg's Manual, Archæology of Art.

FOURTH QUARTER.

Olmsted's Natural Philosophy, vol. i. Horace, finished; Eschenburg's Manual, Archæology and History of Roman Literature.

JUNIOR CLASS.

FIRST QUARTER.

Olmsted's Natural Philosophy, vol. ii. French Language; History, begun; Lectures on Mechanics, Hydrostatics, Electricity, and Magnetism.

SECOND QUARTER.

Olmsted's Astronomy; History, finished; Lectures on Chimistry.

THIRD QUARTER.

Tacitus' History; Negris' Demosthenes, begun; French Language; Lectures on Pneumatics, Acoustics, and Optics.

FOURTH QUARTER.

Negris' Demosthenes, finished; Tacitus' Germany and Agricola; Cicero de Officiis, and Tuscalan Questions; Lectures on Mineralogy, Geology, and Natural History.

SENIOR CLASS.

FIRST QUARTER.

Upham's Intellectual Philosophy; Hedges' Logic; Selections from Greek authors; German Language.

SECOND QUARTER.

Paley's Natural Theology; Evidences of Christianity, (Paley,) Wayland's Moral Science; Selections from Greek authors.

THIRD QUARTER.

Wayland's Political Economy; American Constitutional Law; Rhetoric; German Language.

FOURTH QUARTER.

American Constitutional Law, finished, and Final Examination.

LECTURES.

Lectures are delivered by Prof. Sturtevant, on all the branches of Natural Philosophy; by Prof. Turner, on Rhetoric and Elocution; by Prof. Adams, on Chimistry, and on Natural History, embracing an outline of Mineralogy and Geology, a general classification of organized beings, together with a general view of vegetable and animal Physiology.

EXAMINATIONS.

There is an Examination of a week at the close of each half term. The Senior class are examined in the entire course of study previous to recommendation for degrees. A special committee is appointed by the Trustees to attend the examinations.

COMMENCEMENT, TERM, & VACATION.

The annual Commencement is held on the last Wednesday in June. After Commencement there is a vacation of twelve weeks, and the term continues till the next Commencement, embracing that portion of the year which is most favorable to health and mental vigor.

EXPENSES.

ANNUAL EXPENSES EXCLUSIVE OF VACATION.

Tuition, ...	$20 00	
Room rent, ...	10 00	
Ordinary repairs, . . .	2 50	
Wood for Recitation rooms, etc.	2 50	
Board, say average, . .	50 00	
Washing, about 50 cents per dozen,	10 00	
Total, . . . —		$95 00

The cost of board, at the present time, is from 50 cents to $1 50 per week. The expenses of books, stationery, fuel and lights, do not admit of any exact statement, but may be estimated at from twelve to fifteen dollars per annum. The students may be charged a small sum for printing catalogues, schemes, etc. and those attending the Lectures in Chimistry and Natural Philosophy, are charged $2 50 for the use of apparatus.

With regard to apparel, no general estimate can be made, as it must always depend upon the choice of each individual. It is suficient to say that plainness and economy in this particular are earnestly recommended.

Outfit.—The expenses of outfit are chiefly for furnishing a room. These are not annual expenses, nor are they borne by one alone, each occupant of a room being expected to defray his part of the expense.—The most essential articles are a plain table, two or three chairs, a pail, a wash bowl and pitcher, andirons, shovel and tongs, bedstead and bedding. With the exception of a bed, these articles can be purchased here at reasonable rates. A bed and bed clothes, if purchased here, will cost from ten to thirty dollars; but in all cases where it can be done, it is advisable for a student to bring a bed and bed clothes with him.—

The expense of the other articles must vary with the student's habits of economy. For articles of plain and suitable kind, it will cost from nine to twelve dollars for a room, or from five to six dollars for each student. The furniture, if carefully used, can be sold, when no longer needed, with a reasonable deduction. The same is true of books.

If any student needlessly injures the buildings, books, or other property of the Institution, he is liable to be charged with the amount of the damage.

PAYMENT IN ADVANCE, AND RELIEF FOR INDIGENT STUDENTS.

All students are expected at the commencement of each term to pay in advance the bills for tuition, room rent, and incidental expenses, in all $35.

Indigent students are permitted, however, to settle their bills in advance by note, on condition of holding themselves ready to redeem their notes by their labor during the term, if required so to do by the Faculty or Agent. All others who wish to defray any part of of their expenses can generally find employment, and obtain fair compensation for their labor.

LIBRARIES.

A small library of the text books used in the College course is open for the use of indigent students, for which only a small tax is paid. Benevolent individuals can greatly assist such students by contributing books to this library, as the expense of books often draws heavily on their slender means.

Those who chose may draw books from the College Library (of about 2,300 volumes,) by paying one dollar per term.

RELIGIOUS EXERCISES.

Public prayers are attended in the College chapel every morning and evening, with the reading of the Scriptures and sacred music, at which all the students are required to be present.

There are religious exercises in the Chapel on every Sabbath, at which all the students are required to be present, except such as, from conscientious scruples, prefer to attend some other place of worship; such, on producing a request to that effect from their parents or guardians, or at their own request, if of age, are allowed to attend the place of worship they prefer.

DISCIPLINE & GENERAL RULES.

A record is kept by the Faculty, in which are entered weekly the grade of scholarship of the student, his absences from the exercises of the Institution, and such other facts as are worthy of notice with respect to his general deportment. From this record a semi-annual report is made out and sent to the parent or guardian of each student. In case of deficiency in scholarship, negligence in study, irregularity in attendance upon the exercises of the Institution, or improper conduct, the student will be privately admonished, and the parent or guardian will be promptly informed of the fact. It is the object of this arrangement to keep parents and guardians accurately informed with regard to their sons and wards in this Institution, and thus to secure their co-operation with the Faculty in a mild system of discipline. Whenever it is ascertained that a student is deriving no advantage from his connection with the Institution, or is pursuing courses injurious to himself or fellow students, his pa-

rent or guardian will be promptly addressed on the subject and requested to remove him from the Institution.

By connecting themselves with the Institution, students are understood as pledging themselves, so long as they remain, to abstain from intemperance, profanity, disregard of the Sabbath, and all other vices injurious to themselves or others; to be prompt, diligent and faithful, in the discharge of every duty, and in all respects, to demean themselves with candor, benevolence, and honor, both towards their Instructors and fellows.

Medical Department.

LECTURES.

The course of Lectures commences annually on the first Monday of November, and continues sixteen weeks. The cost of tickets for admission to the full Course is $60: Tickets for Private Dissections, $5: Graduation Fee, including Diploma, $10.

N. B. Students preparing for a missionary life, and wishing to pursue medical studies for that purpose, are admitted to the lectures free of expense.

DEGREES.

The following qualifications, and compliance with the following requisitions, entitle a young gentleman to the degree of Doctor of Medicine from this Institution.

1. He must have pursued a thorough course of study with some practitioner.

2. He must have attended two full courses of medical lectures, the last of which must have been at this Institution, *Provided*, however, that experience in the practice of medicine may be accepted in the place of one course of lectures.

3. He must pass a satisfactory examination in all the branches of medical study, before the Medical Faculty, assisted by a board of censors, annually appointed for that purpose by the Trustees.

4. He must publicly read and defend a dissertation on some medical subject.

N. B. This Institution does not require any definite term of study as a condition of graduation. A

thorough knowledge of all the branches of medical science, whether acquired in a longer or shorter time, must, however, be exhibited at the examination.

Candidates for the degree of Doctor of Medicine are examined at the close of each course of lectures.

Degrees will be conferred at the close of the Lectures, and at the annual Commencement of the College on the last Wednesday of June.

ADVANTAGES.

The Professors are supplied with all the Preparations, Plates, and Apparatus, which are necessary for the full illustration of their several branches of instruction.

In addition to the regular course of lectures, a course of instruction will be continued through the year to those students who may find it to their advantage to remain on the ground. Medical students will have the opportunity of pursuing any study they may choose with the College classes, and of attending the the lectures on Natural Philosophy and Natural History. The philosophical apparatus is one of the best collections in the United States, having been obtained at Paris, at great expense. The price charged for admission to a course of lectures, on the above subjects, is only $2 50.

N. B. It is recommended to students to come supplied with text books in the various departments of study.

BOARD, RENT, &c.

Board may be obtained at the College boarding-house, for $1 50 per week, if paid in advance. Twen-

ty or thirty students can be accommodated with rooms in the College buildings, or in houses near the College premises, at a low rent, by sending in their names before the first of October next. Preference will be given to those who apply first.

Board, and rooms ready furnished, may be obtained in the village of Jacksonville, at from $2 50 to $3 50 per week. Students may save more than half the expense of board by taking a plain fare at their rooms.

N. B. A separate announcement of this Department will be published in the Spring, when further particulars will be stated.

Applications for rooms, and letters of inquiry, may be addressed to Samuel Adams, M. D., Jacksonville, Illinois.
